Transvestites And Transsexuals:

Transvestites and Transsexuals Richard F. Docter, 2012-12-06 The objective of this book is to propose a theory of transvestism and secondary transsexualism and to provide information concerning these behaviors My view of these topics is much like that of Benjamin 1966 and nearly all other gender researchers It holds that a syndrome of similar behaviors can be identified ranging from fetishism through transvestism transgenderism and secondary transsexualism But description is one thing and explanation of causes is another I agree with other gender researchers e g Green Stoller 1985c who have concluded that the causes of transvestism and transsexualism remain largely unknown But the fact that we cannot fully explain the origins of transvestism or secondary transsexualism does not mean that a comprehensive theory is impossible Indeed excellent theoretical statements have been proposed concerning each of these topics Bancroft 1972 Buckner 1970 Buhrich Money Ovesey Person Stoller 1968a 1974 1985c It is with considerable respect therefore that we acknowledge both the strong shoulders on which we stand and also the more practical fact that we have drawn heavily upon the many contributions of these researchers The approach I have adopted has the same scientific difficulties that confronted all of these previous workers

D. G. G. Bolich, Gregory G. Bolich, 2008-01-11 The second in a landmark five volume set by gender scholar G G Bolich this volume looks at the lives of people called transgender These people are allowed to speak for themselves in the various studies conducted with them by many scholars over the last few decades What the research reveals provides a fascinating and compelling look at a group of people increasingly visible in our society Crossdressing in Context, Vol. 2: Today's Transgender Realities Gregory G. Bolich, Ph. D. G. G. Bolich, 2007-06-19 The second volume in a 5 volume set The Context of Transgender Realities examines crossdressing as it is experienced by crossdressers and as it is interpreted by others including researchers from a number of different disciplines Organized as answers to frequently asked questions the text covers everything from what motivates crossdressing to when it begins how it proceeds and what it means

Transgender Realities Gregory G. Bolich, Ph. D. G. G. Bolich, 2008 Transgender Realities is a brief introduction to gender variant people and to the judgments made about them The volume begins with a consideration of what gender is and does and how this relates to all of us Turning to specific consideration of transgender people the book offers what research reveals about them but also what they report about themselves The causes of transgender how society responds to it and how partners family and friends relate to a transgender person are only a few of the matters discussed Also included is a survey of transgender across history and around the world how transgender interacts with religion and the changing way mental health professionals are working with transgender people This volume is a must have introduction **Current Concepts in Transgender Identity** Dallas Denny, 2013-05-13 First published in 1998 This meaningful study looks at the transsexual experience from the point of view of those that are living experts those that live transsexualism or cross dressing and have been directly affected *Transgender History* Susan Stryker, 2009-01-07 Covering American transgender history from the mid twentieth century to today Transgender History takes a chronological approach to the subject of transgender history with each chapter covering major movements writings and events Chapters cover the transsexual and transvestite communities in the years following World War II trans radicalism and social change which spanned from 1966 with the publication of *The Transsexual Phenomenon* and lasted through the early 1970s the mid 70s to 1990 the era of identity politics and the changes witnessed in trans circles through these years and the gender issues witnessed through the 90s and 00s Transgender History includes informative sidebars highlighting quotes from major texts and speeches in transgender history and brief biographies of key players plus excerpts from transgender memoirs and discussion of treatments of transgenderism in popular culture *Sex and Society* Marshall Cavendish Corporation, 2010-09 Moving beyond a partial view of only biology and psychology this work also examines the wide sociological dimensions of sex Two-spirit People

The Politics of Sexuality in Latin America Javier Corrales, Mario Pecheny, 2010-05-24 The city of Buenos Aires has guaranteed all couples regardless of gender the right to register civil unions Mexico City has approved the Cohabitation Law which grants same sex couples marital rights identical to those of common law relationships between men and women Yet a gay man was murdered every two days in Latin America in 2005 and Brazil recently led the world in homophobic murders These facts illustrate the wide disparity in the treatment and rights of lesbian gay bisexual and transgender LGBT populations across the region The Politics of Sexuality in Latin America presents the first English language reader on LGBT politics in Latin America Representing a range of contemporary works by scholars activists analysts and politicians the chapters address LGBT issues in nations from Cuba to Argentina In their many findings two main themes emerge the struggle for LGBT rights has made significant inroads in the first decade of the twenty first century though not in every domain or every region and the advances made were slow in coming compared to other social movements The articles uncover the many obstacles that LGBT activists face in establishing new laws and breaking down societal barriers They identify perhaps the greatest roadblock in Latin American culture as an omnipresent system of heteronormativity wherein heterosexuality patriarchy gender hierarchies and economic structures are deeply rooted in nearly every level of society Along these lines the texts explore specific impediments including family dependence lack of public spaces job opportunities religious dictums personal security the complicated relationship between leftist political parties and LGBT movements in the region and the ever present closets which keep LGBT issues out of the public eye The volume also looks to the future of LGBT activism in Latin America in areas such as globalization changing demographics the role of NGOs and the rise of economic levels and education across societies which may aid in a greater awareness of LGBT politics and issues As the editors posit to be democratic in the truest sense of the word nations must recognize and address all segments of their populations
