Paradiso,2000 Streams often present a challenge for collecting flow and sediment measurements on a year round basis Streams that can normally be waded become hazardous during seasonal flows either endangering hydrographers or precluding data collection completely A hand operated cableway permits the accurate and safe collection of discharge and sediment data from the stream bank This system provides a low cost safe alternative to cable cars or operation from bridges during high runoff This publication describes the construction and use of a cableway system Included are figures describing parts and dimensions installation methods and field operations Trains, Tracks and Travel Thurman William Van Metre,1926 *Lectures on Explosives* Willoughby Walke,1897 Railway & Travel Monthly ,1918
