CONSTRUCTION TWINS 1963-1974 WORKSHOP MANUAL Floyd Clymer,Velocepress,2022-08-26 260 pages and more than  
290 illustrations and charts size 8 25 x 10 75 inches This publication is a reproduction of the Triumph factory workshop  
manual part number 99 0843 0948 0950 The original workshop manual part number 99 0843 was subsequently updated and  
merged with workshop manual 99 0948 This merged double manual also included a supplement part number 99 0950 which  
extended the coverage up to the 1974 models The supplement was appended to the double manual such that Section A  
Lubrication System is followed by a Section AA Lubrication System supplement and Section B Engine is followed by a Section  
BB Engine supplement etc etc This combination of 99 0843 0948 0950 was published as a single workshop manual applicable  
to the entire range of 350cc and 500cc unit construction twins from 1963 through 1974 This reprint is a faithful reproduction  
of that combination manual There were a number of running changes made throughout the 11 year production run of these  
models and the way the factory identifies the point where those changes took place is by referencing engine numbers within  
each individual section of this manual To assist in identifying the appropriate information applicable to those changes the  
supplements were appended to the end of each appropriate section Consequently it is important to note with regard to any  
maintenance and repair instructions and also the specifications in the General Data GD section that wherever engine  
numbers are stated the data will be specific to that particular series Therefore the reader is encouraged to read the entire  
section plus the supplemental section prior to commencing any work paying close attention to any engine number notations  
Owners of the 350cc and 500cc machines are subjected to considerable confusion surrounding the appropriate selection of  
the multitude of originals and reprints of the various 350cc and 500cc manuals that have recently flooded the online  
marketplace Based on our research at least six manuals were issued for different series of engine numbers throughout the 11  
year production run However the 99 0843 0948 0950 combination manual is the most comprehensive manual for the entire  
line of 350cc and 500cc unit construction twins produced from 1963 to 1974 It covers all engine numbers from H29733  
through H67331 plus the later 1969 through 1974 alpha numeric series engine numbers unfortunately it is somewhat scarce  
and difficult to find In addition many of the changes made towards the end of the production run necessitate the use of the  
supplement and we are pleased to offer this reprint of the combination manual as a service to all Triumph 350cc and 500cc
