Clymer, Velocepress, 2022-08-26 260 pages and more than 290 illustrations and charts size 8 25 x 10 75 inches This publication is a reproduction of the Triumph factory workshop manual part number 99 0843 0948 0950 The original workshop manual part number 99 0843 was subsequently updated and merged with workshop manual 99 0948 This merged double manual also included a supplement part number 99 0950 which extended the coverage up to the 1974 models The supplement was appended to the double manual such that Section A Lubrication System is followed by a Section AA Lubrication System supplement and Section B Engine is followed by a Section BB Engine supplement etc etc This combination of 99 0843 0948 0950 was published as a single workshop manual applicable to the entire range of 350cc and 500cc unit construction twins from 1963 through 1974 This reprint is a faithful reproduction of that combination manual There were a number of running changes made throughout the 11 year production run of these models and the way the factory identifies the point where those changes took place is by referencing engine numbers within each individual section of this manual To assist in identifying the appropriate information applicable to those changes the supplements were appended to the end of each appropriate section Consequently it is important to note with regard to any maintenance and repair instructions and also the specifications in the General Data GD section that wherever engine numbers are stated the data will be specific to that particular series Therefore the reader is encouraged to read the entire section plus the supplemental section prior to commencing any work paying close attention to any engine number notations Owners of the 350cc and 500cc machines are subjected to considerable confusion surrounding the appropriate selection of the multitude of

originals and reprints of the various 350cc and 500cc manuals that have recently flooded the online marketplace Based on our research at least six manuals were issued for different series of engine numbers throughout the 11 year production run However the 99 0843 0948 0950 combination manual is the most comprehensive manual for the entire line of 350cc and 500cc unit construction twins produced from 1963 to 1974 It covers all engine numbers from H29733 through H67331 plus the later 1969 through 1974 alpha numeric series engine numbers unfortunately it is somewhat scarce and difficult to find In addition many of the changes made towards the end of the production run necessitate the use of the supplement and we are pleased to offer this reprint of the combination manual as a service to all Triumph 350cc and 500cc unit construction owners The 1963 to 1974 models covered are Tiger 100 T100SS Tiger 1963 1965 T100 Tiger 1966 T100S Tiger 1967 1970 T100T T100R Daytona 1966 1974 T100C Trophy 1966 1972 Speed Twin 5TA 1963 1966 Tiger 90 T90 1963 1969 Twenty One 3TA 1963 1966

Triumph Motorcycles 1937-1961 Single Cylinder Workshop Manual - All Models 1937-1945 Plus Terrier & Tiger Cub 1953-1961 ,2024-02-03 204 pages and more than 100 illustrations and charts size 5 5 x 8 5 inches Originally published under a similar title this publication is a faithful reproduction of the A St J Masters 1961 5th edition of the 1937 1961 Triumph Single Cylinder workshop manual published in the USA by Floyd Clymer under arrangement with the original publishers C Arthur Pearson Ltd of London UK There are very few workshop manuals that deal with the early single cylinder Triumph motorcycles This is likely due to the fact that in 1945 at the end of WW2 when Triumph resumed production of their civilian line of motorcycles they discontinued the manufacture of single cylinder machines From that point onwards they concentrated on their twin cylinder models and it was not until 1952 that Triumph announced another single the 150cc T15 Terrier SINGLE CYLINDER ALL MODELS 1937 1945 When this manual was originally published in 1949 its primary focus was on the 1937 to 1945 single cylinder motorcycles which included a war surplus market that was well stocked with ex military singles Models covered are 2H 2HC 3S 3SE 3SW 3H 3HW 5S 5SE 5SW 5H 6S T70 T80 T90 The bulk of these machines were based on a design that dates back to 1934 which also makes this manual of use to owners of those earlier Triumph singles TERRIER TIGER CUB 1953 1961 Ultimately the 1961 5th edition of this manual was revised and expanded to include the 1953 1961 Terrier and Tiger Cub models The information included is appropriate for all T15 T20 T20C T20S models fitted with an external distributor The engine section includes the 1960 change to energy transfer ignition plus the change at engine number 57617 when the split line between the main castings was moved to the center line of the cylinder Many Triumph enthusiasts consider that the external distributor Tiger Cub models brought the true Triumph single cylinder line to a conclusion This is further supported by the fact that the final workshop manual for the T15 T20 T20C T20S published under the Triumph name was the August 1964 manual No 8 part number 906 64 which only included the external distributor models In addition under BSA ownership the Tiger Cub engine had previously been utilized as the basis for the 1959 BSA C15 and ultimately by the BSA Bantam Cub series from 1966 onwards Unfortunately Triumph motorcycle owners

are subjected to considerable confusion surrounding the appropriate selection from the multitude of originals and reprints of the various manuals that have recently flooded the online marketplace We encourage you to exercise caution when purchasing a manual for your motorcycle or automobile as many of the reprints found on internet websites are from bedroom sellers at enticingly low prices by individuals that really have no idea what they are selling Many are nothing more than poor quality comb bound photocopies that are scanned and printed complete with greasy pages and thumbprints and as such are deceptively described as pre owned used or even refurbished In addition they are often advertised for the incorrect series and or model years
