environmentalist they're likely to point to the river they played in the ocean they visited the wild animals they observed or the trees they climbed when they were a kid This refocusing away from impending catastrophe and our inevitable doom cultivates meaningful emotional and psychological connections and provides real actionable steps to caring for the earth Freeing ourselves from a war mentality and seeing the bigger picture of how everything from prison reform to saving the whales can contribute to our planetary ecological health we resist reflexive postures of solution and blame and reach toward the deep place where commitment lives
