Francis J. Gardella,2023-12-15 The Human Side of Teaching focuses on thoughts that give the new teacher a realistic view of the teaching and school communities in which they are entering For the veteran teacher it attempts to be a reminder of why they entered teaching and why it is a profession in which they want to remain The book focuses on the teacher as a person the role one plays in the classroom as well as a member of an organization and a community These areas of focus take the reader through the various levels of the teaching profession and offer both new and veteran teachers a focus on the reality with which they will and have been dealing The writing at times is philosophical seemingly pie in the sky and at other times it is bluntly honest In this the writing gives neophytes some realistic aspects of their new profession as well as reminds veteran teachers in moving through their many frustrations why they enjoy or wish teaching children of any age Sideswiped by

Eternity Joseph Lawrence Roberts,2006-01-01 These sermons by the pastor of Atlanta s historic Ebenezer Baptist Church demonstrate his commitment to the legacy of Martin Luther King Jr the mission of his church the lives of his parishioners and the message of Jesus Christ *Airman* ,1992 **America the Philosophical** Carlin Romano,2013-04-23 This bold

insightful book argues that America today towers as the most philosophical culture in the history of the world an unprecedented marketplace for truth and debate With verve and keen intelligence Carlin Romano Pulitzer Prize finalist award winning book critic and professor of philosophy takes on the widely held belief that the United States is an anti intellectual country Instead he provides a richly reported overview of American thought arguing that ordinary Americans see through phony philosophical justifications faster than anyone else and that the best of our thinkers ditch artificial academic debates for fresh intellectual enterprises Along the way Romano seeks to topple philosophy s most fiercely admired hero Socrates asserting that it is Isocrates the nearly forgotten Greek philosopher who rejected certainty whom Americans should honor as their intellectual ancestor America the Philosophical is a rebellious tour de force that both celebrates our country s

unparalleled intellectual energy and promises to bury some of our most hidebound cultural clichés **The A to Z of**
