War And Change In The Balkans Nationalism Conflict And Cooperation:

War and Change in the Balkans Brad K. Blitz, 2006-10-12 A contemporary history of the Balkans from the break up of Yugoslavia to the present day first published in 2006 *Stateness and Democratic Consolidation* Filip Milačić, 2022-07-18 This book argues that the unresolved stateness in the republics of the former Yugoslavia played a key role in determining the course and dynamics of their turbulent democratic transition To support this claim the authors develop a series of causal mechanisms Subsequently they analyze to what extent these causal mechanisms could be applied to other cases like the one of Ukraine s democratization The book presents a theoretical framework as well as conclusions and arguments that are instrumental for the better understanding of the democratization process in general which could be useful for other countries to avoid the mistakes that were made in the cases of former Yugoslav republics It therefore is a must read for researchers and scholars of political science as well as practitioners and policy makers interested in a better understanding of democratization transformation processes nation building and stateness *International Criminal Justice and the Politics of Compliance* Dr Christopher K Lamont, 2013-03-28 International Criminal Justice and the Politics of Compliance provides a comprehensive study of compliance with legal obligations derived from the International Criminal Tribunal for the former Yugoslavia s ICTY Statute and integrates theoretical debates on compliance into international justice scholarship Through the use of three models of compliance based on coercion self interest and norms Christopher Lamont explores both the domestic politics of war crimes indictments and efforts by external actors such as the European Union the United States and the Tribunal itself to induce compliance outcomes He examines whether compliance outcomes do or do not translate into a changed normative understanding of international criminal justice on the part of target states Clausewitz's Timeless Trinity Colin M. Fleming, 2016-05-23 This is the first book to apply the Clausewitzian Trinity of passion chance and reason to the experience of real war It explores the depth and validity of the concept against the conflicts of former Yugoslavia wars thought to epitomise a post Clausewitzian age In doing so it demonstrates the timeless message of the Trinity but also ties the Trinitarian idea back into Clausewitz s political argument Intended to build on the existing corpus of scholarship this book differs from the existing literature in two ways By applying the Trinity to the wars of former Yugoslavia 1991 1995 it explores war at its micro foundations assessing the complex cause and effect nexus of reciprocity produced by actions between belligerents embroiled in dynamic competition perpetuated by their own interaction Providing valuable insights into the complexities of real war fuelled by passion undermined by chance and shaped by reason it is the first study to bridge the Clausewitzian world of theory with real experience Examining each part of the triad separately the book explores the multiple manifestations of hostility and chance before then assessing the influence of these elements on the policies of the belligerents as the war evolved Bibliography of Sources on the Region of Former Yugoslavia Volume III Rusko Matuli?, 1998 The Balkan Prism Johanna Deimel, 2007 **Responding to Systemic Human Rights Violations** Philip

Second how does its ever changing political system influence Italy's choices in foreign relations Third how do domestic structures constrain or enable Italy's place on the world stage To answer these questions this book consists of two broad parts The first part sets the context and discusses issues horizontally focusing on foreign policy security and defense policy development cooperation and multilateral action The second part which takes a vertical approach discusses Italy's relations with key countries and regions of the world
