The Archaeology of Caves in Ireland Marion Dowd, 2015-01-31 The Archaeology of Caves in Ireland is a ground breaking and unique study of the enigmatic unseen and dark silent world of caves People have engaged with caves for the duration of human occupation of the island spanning 10 000 years In prehistory subterranean landscapes were associated with the dead and the spirit world with evidence for burials funerary rituals and votive deposition The advent of Christianity saw the adaptation of caves as homes and places of storage

yet they also continued to feature in religious practice Medieval mythology and modern folklore indicate that caves were considered places of the supernatural being particularly associated with otherworldly women Through a combination of archaeology mythology and popular religion this book takes the reader on a fascinating journey that sheds new light on a hitherto neglected area of research It encourages us to consider what underground activities might reveal about the lives lived aboveground and leaves us in no doubt as to the cultural significance of caves in the past

Fosterage in Medieval Ireland Thomas O'Donnell, 2025-10-01 Fosterage was a central feature of medieval Irish society yet the widespread practice of sending children to another family to be cared for until they reached adulthood is a surprisingly neglected topic Where it has been discussed fosterage is usually conceptualised and treated as a purely legal institution This work seeks to outline the emotional impact of growing up within another family What emerges is a complex picture of deeply felt emotional ties binding the foster family together These emotions are unique to the social practice of fosterage and we see the language and feelings originating within the foster family being used to describe other relationships such as those in the monastery or between humans and animals This book argues that the more we understand how people felt in fosterage the more we understand medieval Ireland

The Celtic Encyclopedia Harry Mountain, 1998 The book concentrates on the cultures that arose in Europe after the dispersal of the Aryan speaking people from their homeland north of the Black Sea during BC 4th millenium Relying on mythology history and archeology the author has traced the development and movements of the Q Celt and P Celt speaking peoples of Europe and Asia Minor The time span covers from BC 3rd millenium to the Roman occupation of Celtic Europe The emphasis is on the Bronze and Iron Ages The result is a comprehensive overview of the people we have come to call the Celts The work uses a clear language style and is organized as an encyclopedia for easy reference Over 50 sub cultures 260 tribes and 1000 characters dieties heroes warriors etc are listed alphabetically with separate chapters describing religious practices customs social structure etc as well as relevant museum collections and sites of interest Complete 5 volume set ISBN 1581128894 US 129 95 Vol 1 ISBN 1581128908 US 25 95 Vol II ISBN 1581128916 US 25 95 Vol III ISBN 1581128924 US 25 95 Vol IV ISBN 1581128932 US 25 95 Vol V ISBN 1581128940 US 25 95

and Ireland's enduring accomplishments before moving on. But these nights change young Ronan forever, setting him on a years-long pursuit of the elusive itinerant storyteller and the glorious tales that are no less than the saga of his tenacious and extraordinary isle.

History of Ireland Standish O'Grady, 1878 The Celtic Heroic Age John T. Koch, John Carey, 2000 A new edition of an invaluable collection of literary sources all in translation for Celtic Europe and early Ireland and Wales. The selections are divided into three sections: the first is classical authors on the ancient Celts, a huge selection including both the well-known Herodotus, Plato, Aristotle, Livy, Diogenes Laertius, and Cicero, and the obscure Pseudo-Scymnus, Lampridius, Vopiscus, Clement of Alexandria, and Ptolemy I. The second is early Irish and Hiberno-Latin sources including early Irish dynastic poetry and numerous tales from the Ulster cycle, and the third consists of Brittonic sources, mostly Welsh.

Irish Minstrels and Musicians Francis O'Neill, 1913 *Ireland and Europe in the Early Middle Ages* Michael Richter, 2002 Five German and 21 English papers explore how Ireland contributed to the intellectual and cultural life of Europe during the period. Among the topics are a case for multilingualism in early Wales, Theodore of Mopsuestia's Commentary on the Psalms as a case of Irish transmission of Late Antique learning.
