

WARSHIPS OF THE ANCIENT WORLD

3000–500 BC

ADRIAN K. WOOD

ILLUSTRATED BY GIUSEPPE RAVA

Warships Of The Ancient World 3000 500 Bc New Vanguard

Raffaele D'Amato, Andrea Salimbeti

Warships Of The Ancient World 3000 500 Bc New Vanguard:

Warships of the Ancient World Adrian K. Wood,2013-01-20 The world's first war machines were ships built two millennia before the dawn of the Classical world Their influence on the course of history cannot be overstated A wide variety of galleys and other types of warships were built by successive civilisations each with their own distinctive appearance capability and utility The earliest of these were the Punt ships and the war galleys of Egypt which defeated the Sea People in the first known naval battle Following the fall of these civilisations the Phoenicians built biremes and other vessels while in Greece the ships described in detail in the Trojan epics established a tradition of warship building culminating in the pentekonteres and triakonteres In the first accessible introduction to this subject Adrian K Wood examines the warships of the period alongside illustrations from pottery and carved seals and depicted in inscriptions and on bas reliefs

Warships of the Ancient World Adrian K. Wood,2013-01-20 The world's first war machines were ships built two millennia before the dawn of the Classical world Their influence on the course of history cannot be overstated A wide variety of galleys and other types of warships were built by successive civilisations each with their own distinctive appearance capability and utility The earliest of these were the Punt ships and the war galleys of Egypt which defeated the Sea People in the first known naval battle Following the fall of these civilisations the Phoenicians built biremes and other vessels while in Greece the ships described in detail in the Trojan epics established a tradition of warship building culminating in the pentekonteres and triakonteres In the first accessible introduction to this subject Adrian K Wood examines the warships of the period alongside illustrations from pottery and carved seals and depicted in inscriptions and on bas reliefs

Imperial Roman Warships 27 BC-193 AD Raffaele D'Amato,2016-01-20 The Roman Empire was not only built by the strength of the legions but also by a navy that was the most powerful maritime force ever to have existed It was the presence of this fleet that secured the trade routes and maintained the communications within the huge Empire The superior design of their warships coupled with skilled naval commanders such as Agrippa Sextus Pompeius and Pontus Euxinus gave the Roman Empire a formidable navy that could defend the coasts of the three continents under the rule of the Caesars Featuring archaeological photography and lavish artistic reconstructions this book reveals the design and development history of Rome's naval force at the height of its Imperial power As well as examining its warships it reveals the navy's structure and the tactics that were developed to make the most of Rome's naval design superiority

Sea Peoples of the Bronze Age Mediterranean c.1400 BC-1000 BC Raffaele

D'Amato,Andrea Salimbeti,2015-02-20 This title features the latest historical and archaeological research into the mysterious and powerful confederations of raiders who troubled the Eastern Mediterranean in the last half of the Bronze Age Research into the origins of the so called Shardana Shekelesh Danuna Lukka Peleset and other peoples is a detective work in progress However it is known that they both provided the Egyptian pharaohs with mercenaries and were listed among Egypt's enemies and invaders They contributed to the collapse of several civilizations through their dreaded piracy and raids and

their waves of attacks were followed by major migrations that changed the face of this region from modern Libya and Cyprus to the Aegean mainland Greece Lebanon and Anatolian Turkey Drawing on carved inscriptions and papyrus documents mainly from Egypt dating from the 15th 11th centuries BC as well as carved reliefs of the Medinet Habu this title reconstructs the formidable appearance and even the tactics of the famous Sea Peoples **Ancient Greek Warship** Nic Fields,2007-03-27 Formidable and sophisticated triremes were the deadliest battleship of the ancient world and at the height of their success the Athenians were the dominant exponents of their devastating power Primarily longships designed to fight under oar power the trireme was built for lightness and strength ship timber was mostly softwoods such as poplar pine and fir while the oars and mast were made out of fir Their main weapon was a bronze plated ram situated at the prow From the combined Greek naval victory at Salamis 480 BC through the Peloponnesian War and up until the terrible defeat by the Macedonians at Amorgos the Athenian trireme was an object of dread to its enemies This book offers a complete analysis and insight into the most potent battleship of its time the weapon by which Athens achieved maintained and ultimately lost its power and prosperity **Republican Roman Warships 509-27 BC** Raffaele D'Amato,2015-09-20 The birth of the mighty Roman Navy was anchored in the Romans extraordinary ability to absorb and perfect the technology of other states and empires This is the story of the design development and operation of the Republican Roman warship in the age of the conquest of the Mediterranean from the first Roman naval adventure of 394 BC and the Punic Wars to Pompey s operations against the Cilician Pirates and Caesar s victorious naval campaigns in Armorica concluding with the consolidation of the Mediterranean Sea as Mare Nostrum with the battle of Actium in 31 BC Archaeological photography including those of exciting recent finds such as the Roman warship rostra rams found in the Aegates Islands accompany lavish artistic reconstructions in illustrating the ships of the first Roman navy **Imperial Roman Warships 27 BC-193 AD** Raffaele D'Amato,2016-01-19 The Roman Empire was not only built by the strength of the legions but also by a Navy that was the most powerful maritime force ever to have existed It was only the existence of the fleet that secured the trade routes and maintained the communications within the huge Empire At the height of its power the Roman Navy employed tens of thousands of sailors marines and craftsmen coming from every corner of the three continents under the rule of the Caesars This book reveals the design and development history of Rome s naval force at the height of its Imperial Power As well as examining its warships it reveals the basic navy structure and the tactics that were developed to make the most of Rome s naval design superiority **Ships and Seamanship in the Ancient World** Lionel Casson,2014-07-14 Written to replace and extend Torr s Ancient Ships this generously illustrated underwater Bible traces the art and technology of Mediterranean ships and seamanship from their first crude stages about 3000 B C to the heyday of the Byzantine fleets Originally published in 1971 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these

important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *The Ships of the Ancient Near East (c. 1000-500 B.C.)* Marie-Christine de Graeve,1981 *Ships and Seafaring in Ancient Times* Lionel Casson,1994 Ever since the earliest travelers took to the water on reed rafts or inflated goatskins ships and boats have played a paramount role in the history of the Western world The invention of the sail about 3500 BC resulted in ever faster and more efficient water transport and the great civilizations of Egypt Greece and Rome depended on ships and seafarers for their prosperity This entertaining book by the world s foremost authority on ancient seamanship traces the development of the boat from the most primitive craft to the powerful warships of the Greeks the huge Roman merchant vessels and the slender galleys of the Vikings Professor Casson shows how the discoveries of marine archaeologists and recent experiments with full size replicas of ancient boats have increased our knowledge of the way in which ships were built and used Drawing upon written accounts and contemporary artistic depictions of naval battles trading expeditions and other voyages he brings the world of seafaring in ancient times vividly to life **Roman Warships** Michael Pitassi,2011 An examination of Roman naval development drawing upon archaeological evidence documentary accounts and visual representation *Ancient Ships* Cecil Torr,2020-01-31 First published in 1895 this vintage book contains a detailed history of ancient shipping Focusing on shipping in the Mediterranean between 1000 B C And 1000 A D this volume contains information on everything related to the subject including detailed descriptions of different ships how they were designed and made their evolution and much more Cecil Torr s *Ancient Ships* is highly recommended for those with an interest in maritime history and it would make for a fantastic addition to collections of allied literature Contents include Ships with Oars Dimensions of the Ships Tonnage of the Ships Materials for Ship building Structure of the Hull Anchors and Cables Steering gear Rigging Flags and Lights Sounding lead Log etc Ship s Boat etc *Greek Oared Ships 900-322 Bc* John Morrison,1998-12 This fundamental work has been out of print for many years but it is now at last once again available It is written in the belief that a proper understanding of Greek civilization in antiquity requires some knowledge of its background of seafaring A knowledge of nautical practice is required for an understanding of some passages of Greek poetry and prose writing and for a correct interpretation of numerous historical events This is an attempt at a thorough study of the evidence both literary and archaeological Modern reference books tend to repeat the misconceptions of nineteenth century scholars In contrast Mr Morrison and Mr Williams have written a scholarly and scientific study of the subject They collect in this volume evidence for Greek oared ships between 900 and 322 BC The book is primarily a catalogue of decorated pottery and quotations from literature and from naval inventories The pottery is illustrated by diagrams and plates and the quotations are given in full **History of Warships** James L. George,1999 Organised by the four major ages of warships galley sail steam and modern this book presents the design evolution

construction and operational uses of specific ship types including their defenses weapons and famous sea battles The Roman Navy Michael Pitassi,2012-05-11 The Roman Navy was remarkable for its size reach and longevity As significant as the Royal Navy was to the British Empire in the nineteenth century the Roman Navy was crucial to the extraordinary expansion of Imperial power and for its maintenance over a period of more than 800 years The fabric and organisation of this maritime force is at the core of this new book At the height of its power the Roman Navy was at least in numerical terms the largest maritime force ever to have existed It employed tens of thousands of sailors and maintained and fought fleets of ships larger than any forces since In these pages the author looks at all the aspects of the Navy in turn Shipbuilding rigs and fittings and shipboard weaponry are covered as are all the principal ship from the earliest types to the very last The command structure is outlined as are all aspects of the crews lives their recruitment terms of service training and uniforms Life onboard food and drink discipline religion and superstition are described while seamanship and navigation are dealt with along with bases and shore establishments Operations feature prominently the allied and enemy navies compared and specimen battles employed to explain fighting tactics All these aspects changed and developed hugely over the great span of the Roman empire but this fascinating book brings this complex story together in one brilliant volume **Warships of the World** Christopher Chant,2011
