Wasp Women Airforce Service Pilots:

Clipped Wings Molly Merryman, 2020-09-15 Revives the overlooked stories of pioneering women aviators who are also featured in the forthcoming documentary film *Coming Home Fight for a Legacy During World War II* all branches of the military had women's auxiliaries Only the Women Airforce Service Pilots WASP program however was made up entirely of women who undertook dangerous missions more commonly associated with and desired by men Within military hierarchies the World War II pilot was perceived as the most dashing and desirable of servicemen Flyboys were the daring elite of the United States military More than the WACs Army WAVES Navy SPARS Coast Guard or Women Marines the WASPs directly challenged these assumptions of male supremacy in wartime culture WASPs flew the fastest fighter planes and heaviest bombers they test piloted experimental models and worked in the development of weapons systems Yet the WASPs were the only women's auxiliary within the armed services of World War II that was not militarized In *Clipped Wings* Molly Merryman draws upon military documents many of which weren't declassified until the 1990s congressional records and interviews with the women who served as WASPs during World War II to trace the history of the over one thousand pilots who served their country as the first women to fly military planes She examines the social pressures that culminated in their disbandment in 1944 even though a wartime need for their services still existed and documents their struggles and eventual success in 1977 to gain military status and receive veterans benefits In the preface to this reissued edition Merryman reflects on the changes in women's aviation in the past twenty years as NASA's new Artemis program promises to land the first female astronaut on the moon and African American and lesbian women are among the newest pilot recruits Updating the story of the WASPs Merryman reveals that even in the past few years there have been more battles for them to fight and more national recognition for them to receive At its heart the story of the Women Airforce Service Pilots is not about war or planes it is a story about persistence and extraordinary achievement These accomplished women pilots did more than break the barriers of flight they established a model for equality

[A Wasp Among Eagles](#) Ann Carl, 2013-06-04 Before World War II most Americans did not believe that the average woman could fly professionally but during the war more than a thousand women pilots proved them wrong These were the Women Airforce Service Pilots WASPs who served as military flyers on the home front In March 1944 one of them Ann Baumgartner was assigned to the Fighter Flight Test Branch at Wright Field in Dayton Ohio There she would make history as the only woman to test fly experimental planes during the war and the first woman to fly a jet A WASP among Eagles is the first person story of how Baumgartner learned to fly trained as a WASP and became one of the earliest jet age pioneers Flying such planes as the Curtiss A 25 Helldiver the Lockheed P 38 and the B 29 Superfortress she was the first woman to participate in a host of experiments including in air

WASP performed every duty inside the cockpit as their male counterparts except combat and 38 women pilots gave their lives in the service of their country Notwithstanding their outward appearance as official members of the U S Army Air Forces the WASP were considered civil servants during the war Despite a highly publicized attempt to militarize in 1944 the women pilots would not be granted veteran status until 1977 In the Soviet Union Marina Raskova Russia s Amelia Earhart famous for her historic Far East flight in 1938 formed the USSR s first all female aviation regiments that flew combat missions along the Eastern Front A little over one thousand women flew a combined total of more than 30 thousand combat sorties producing at least 30 Heroes of the Soviet Union Included in their ranks were at least two fighter aces More than 50 women pilots were killed in action Sharing both patriotism and a mutual love of aviation these pioneering women flyers faced similar obstacles while challenging assumptions of male supremacy in wartime culture Despite experiencing discrimination from male aircrews during the war these intrepid airwomen ultimately earned their respect The pilots exploits and their courageous story told so convincingly here continue to inspire future generations of women in aviation We Love to Fly Nancy Robison, Beverly Beesemyer, 2013-07-26 WASP Women Airforce Service Pilots flew an estimated 60 million miles and flew 78 different kinds of aircraft from factories to bases and around the country Not only did they deliver the planes but they gave instruction on how to fly to male cadets and towed targets for gunnery practice using live ammunition Not recognized as military until 2010 they went forward to help their country because they loved to fly **Nancy Love and the WASP Ferry Pilots of World War II** Sarah Byrn Rickman, 2008 When the United States entered World War II the Army needed pilots to transport or ferry its combat bound aircraft across the United States for overseas deployment and its trainer airplanes to flight training bases Male pilots were in short supply so into this vacuum stepped Nancy Love and her Women s Auxiliary Ferrying Squadron WAFS Initially the Army implemented both the WAFS program and Jacqueline Cochran s more ambitious plan to train women to do many of the military s flight related jobs stateside By 1943 General Hap Arnold decided to combine the women s programs and formed the Women Airforce Service Pilots WASP with Cochran as the Director of Women Pilots Love was named the Executive for WASP *W.A.S.P. : Women Airforce Service Pilots, WWII*, 1981 Profiles of the class of 44 1 Women Airforce Service Pilots of World War II Fly Gals of World War II Eleanor Thompson Wortz, 2011 *Fly Gals of World War II* is a feisty young southern woman s account of her two years with the Women Airforce Service Pilots WASP Eleanor Thompson had determined at age 12 that she would fly She earned a private pilot s license at 19 At 21 she became the first WASP from North Carolina Eleanor and the other dedicated WASPs ferried planes across the country from factories to bases where they were needed often with little rest between trips They acted as test pilots flew weather missions towed targets for male pilots to practice firing live ammunition and even chauffeured generals It was dirty tiring and dangerous work but filled their lives with excitement and adventure Above all they were happy to be doing their part to win the war The WASP met fierce discrimination by the male dominated world and even endured shouts of Go back to the kitchen

Being maligned by the men she worked with didn't stop Eleanor any more than sandstorms stinging her skin and snow blocking her visibility while flying open cockpit. She believed she was invincible. Eleanor's amazing account of verve and valor provides an intimate look into an unheralded part of American history. Once privy to her story, no reader will question that she and the other brave women of the WASP deserved the Congressional Gold Medal which they finally received in 2010.

Skies, Stripes and Wings: An Inspirational Saga of American Women Pilots in World War II Pasquale De

Marco, 2025-04-23 In the annals of aviation history, one group of women stands out as a beacon of courage, determination, and unwavering spirit: the Women Airforce Service Pilots (WASP) of World War II. This book tells their extraordinary story, shedding light on their remarkable achievements and the challenges they faced as they shattered barriers and redefined the limits of possibility. The WASP were the first women to serve as military pilots in the United States. Despite facing discrimination, prejudice, and skepticism, these women dared to dream of flying and refused to be deterred. They underwent rigorous training, mastering the art of flying with skill and precision. They ferried aircraft across the country, tested experimental planes, and even served as tow targets for anti-aircraft gunnery practice. Their contributions to the war effort were invaluable, freeing up male pilots for combat and demonstrating the vital role that women could play in aviation. The WASP flew over 60 million miles during the war, delivering aircraft to military bases and factories across the country. They also played a crucial role in training male pilots, serving as flight instructors and tow targets for anti-aircraft gunnery practice. The WASP were pioneers in every sense of the word. They paved the way for future generations of women aviators, proving that women were capable of flying military aircraft with the same skill and competence as men. Their legacy is one of inspiration and empowerment, demonstrating the limitless potential of women in traditionally male-dominated fields. This book delves into the fascinating history of the WASP, drawing on personal accounts, historical records, and in-depth analysis to paint a vivid portrait of these extraordinary women. It explores their motivations, their challenges, and their triumphs, providing a deeper understanding of their remarkable impact on aviation history. **Skies, Stripes and Wings: An Inspirational Saga of American Women Pilots in World War II** is a tribute to the courage, resilience, and determination of the WASP. It is a story that deserves to be told and retold, inspiring generations to come. If you like this book, write a review on Google Books. **WASP in Their Own Words**

, 2010-03-10 **For God, Country, and the Thrill of It** Anne Noggle, 1990 American women pilots garnered much attention during the Gulf War, but American women were in fact military pilots as far back as World War II. Anne Noggle, now a photographer and author based in Albuquerque, has captured the spirit of these dynamic aviation pioneers in her photographic book **For God, Country, and the Thrill of It**. In 1943-44, Noggle was a WASP, a member of the Women Airforce Service Pilots group, the country's first women military pilots. She and her colleagues disproved assertions that women would be too emotional or high-strung to fly military aircraft. They flew every type of plane in use at the time, initially ferrying aircraft wherever they were needed and later serving as test pilots and enemy in training maneuvers for male combat flyers.

Earning 50 a month less than male counterparts in noncombatant roles WASPs were called on several times to test planes such as the P 39 that male flyers had declared flying coffins The women flyers had better records and adhered to flight regulations and after their test flights the military declared that the planes were indeed safe to fly if flown properly Still thirty eight WASPs did lose their lives on active duty Not until 1979 however did Congress affirm that these women had been in active military service and were thus eligible for veterans benefits Women Airforce Service Pilots had been abruptly dismissed in December 1944 when it was decided that they were no longer needed Since 1944 Anne Noggle has been a flight instructor a crop duster and an air show pilot More recently she has turned her considerable energy and enthusiasm toward photography and serves on the arts faculty at the University of New Mexico It was at the 1986 WASP reunion at their old training ground on the flat prairies of Sweetwater Texas that Anne Noggle made the stunning photographs of these military pioneers The Chicago Tribune reported that the portraits taken against a neutral background that focuses attention on the women themselves are the heart of the book Pride and confidence are hallmarks of these pictures Some women wear their uniforms and the rest wear every manner of civilian dress But all of them wear their wings and their age with the distinct bearing of people who challenged their own strength of character and won The WASP portraits have been exhibited across the country Ms Noggle s interest in photography on women s experiences in the military took her to Moscow three times even as the Soviet Union dissolved Her forthcoming book *A Dance with Death* fall 1994 presents the stories of the Soviet Union s female combat pilots in World War II along with historic photographs and contemporary portraits by Noggle
