Mead,1997 **Ford Fiesta** Ford Motor Comp,1976 **Ford Fiesta** Ford Motor Company ltd,1976 *Queer Alliances* Erin Mayo-Adam,2020-07-14 A unique investigation into how alliances form in highly polarized times among LGBTQ immigrant and labor rights activists revealing the impacts within each rights movement Queer Alliances investigates coalition formation

among LGBTQ immigrant and labor rights activists in the United States revealing how these new alliances impact political movement formation In the early 2000s the LGBTQ and immigrant rights movements operated separately from and sometimes in a hostile manner towards each other Since 2008 by contrast major alliances have formed at the national and state level across these communities Yet this new coalition formation came at a cost Today coalitions across these communities have been largely reluctant to address issues of police brutality mass incarceration economic inequality and the ruthless immigrant regulatory complex Queer Alliances examines the extent to which grassroots groups bridged historic divisions based on race gender class and immigration status through the development of coalitions looking specifically at coalition building around expanding LGBTQ rights in Washington State and immigrant and migrant rights in Arizona Erin Mayo Adam traces the evolution of political movement formation in each state and shows that while the movements expanded they simultaneously ossified around goals that matter to the most advantaged segments of their respective communities Through a detailed multi method study that involves archival research and in depth interviews with organization leaders and advocates Queer Alliances centers local coalition based mobilization across and within multiple movements rather than national campaigns and court cases that often occur at the end of movement formation Mayo Adam argues that the construction of common political movement narratives and a shared core of opponents can help to explain the paradoxical effects of coalition formation On the one hand the development of shared political movement narratives and common opponents can expand movements in some contexts On the other hand the episodic nature of rights based campaigns can simultaneously contain and undermine movement expansion reinforcing movement divisions Mayo Adam reveals the extent to which inter and intra movement coalitions formed to win rights or thwart rights losses represent and serve intersectionally marginalized communities who are often absent from contemporary accounts of social movement formation
