World Civilizations Peter N. Stearns, 2007 The primary goal of World Civilizations is to present a truly global history since the development of agriculture and herding to the present Overview of World History Readers interested in the history and development of civilization worldwide World Civilizations Peter N. Stearns, Michael Adas, Stuart B. Schwartz, 2001 The primary goal of World Civilizations is to present a TRULY GLOBAL HISTORY one that both discusses the development of the world's leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies World Civilizations examines all the world's civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia Latin America and the nations and states of the Pacific Rim World Civilizations balances this discussion of independent developments in all the world's major civilizations with comparative analysis of the results of international contact World Civilizations organizes its presentation of global history into SIX COHERENT TIME PERIODS with each period defined by the new and parallel patterns that evolved among all or most civilizations during the particular era The six periods correspond to the six parts of the book Within each part the authors identify specific themes that characterize common experiences or common forces in individual societies as well as the new kinds and patterns of global contacts that emerged during the era Thus for example Part I of the book discusses the developmental stage of world history including the rise of agriculture and the development of civilization Part II examines the classical era in global history an era marked by the integration of large regions and diverse groups of people through overarching cultural and political systems Subsequent parts of the book continue the emphasis on geographic shifts and the intensification of contact among civilizations **World Civilizations**, 2004 World Civilizations Peter N. The primary goal of *World Civilizations* is to present a truly global history since the development of agriculture and herding to the present. Using a unique periodization, this book divides the main periods of human history according to changes in the nature and extent of global contacts. This global world history text emphasizes the major stages in the interactions among different peoples and societies while also assessing the development of major societies. Presenting social and cultural as well as political and economic aspects, the book examines key civilizations in world history. *World Civilizations* balances this discussion of independent developments in the world's major civilizations with comparative analysis of the results of global contact. **World Civilizations** Higher Education Publishing Company, Incorporated, Peter N. Stearns, Michael Adas, Stuart B. Schwartz, 1992-01 Vladimir Putin and Russia's Imperial Revival David E. McNabb, 2017-07-05 Discerning the early stages of the rebirth of a new Russian empire from the ashes of the Soviet Union, *Vladimir Putin and Russia's Imperial Revival* argues that Russia's recent overtly aggressive actions and foreign policy doctrines have signaled a renewal of the Cold War. At the least, Russia's actions represent the potential for renewal. This book explains these developments in a historical context. The book begins by describing Russia's initial policy of rapprochement after the collapse of the Soviet Union and its development into a foreign policy of threatened or actual armed aggression. It identifies today's Russia as a nation determined to re-establish itself as a political and military force. As a prominent figure in the development and continuation of its current foreign policy, Vladimir Putin plays a central role in the topics covered. Previous literature often treats Putin as an individual phenomenon, examining his connections to corruption or the secret police, but here David E. McNabb examines him as the latest in a long history of Russian despots who followed similar expansionist policies. He details some of the tactics Putin uses to instill fear and dominate political policies of republics newly independent from Russia. These tactics include the use of energy as a weapon, cyber terrorism, and military support for ethnic Russian separatists in other sovereign nations, most recently exemplified by Russia's annexation of Crimea from Ukraine via armed invasion. In an attempt to demystify Russia's re-emergence as an international political force, *Vladimir Putin and Russia's Imperial Revival* grounds its analyses in history. It explores as far back as the establishment of the first Russian empire and regards Putin as a leader determined to establish a fifth imperial incarnation. It provides a nuanced understanding of how Russia arrived at its current position through recent and distant internal and international events.
