Part 3 addresses selected critical aspects of the system of social support in the impact of public transfers, the extent of private interhousehold transfers and public opinion about social problems.

The World Bank and Sustainable Development David Freestone, 2012-10-19 The World Bank and Sustainable Development Legal Essays collects works from the past ten years by David Freestone, former Deputy General Counsel and Senior Adviser at the World Bank. The essays offer a unique perspective founded on the author's years of experience at the World Bank. They cover a wide range of topics including the Bank's Sustainable Development and its Climate Change agendas as well as its project-based Environmental and Social Safeguard policies, highlighting the evolution of the pioneering role of the Bank's Inspection Panel. Other essays look at the establishment and subsequent evolution of the Global Environment Facility (GEF), the design and implementation of the innovative Prototype Carbon Fund, now the basis of a 3 billion greenhouse gas reduction portfolio. Updated by current Bank Staff members, together these seven legal essays represent a seminal body of work from a uniquely qualified voice in international environmental law.

Sustainable Development in Africa Walter Leal Filho, Rudi Pretorius, Luiza Olim de Sousa, 2021-07-09 This book serves the purpose of documenting and promoting African experiences on sustainable development which encompasses both formal and non-formal education. Sustainable development is very important to Africa but there is a paucity of publication which documents and promotes experiences from African countries. Due to their complexity, the interrelations between social, economic and political factors related to sustainable development especially at universities need to be better understood. There is also a real need to showcase successful examples of how African institutions are handling their sustainability challenges. It is against this background that this book has been produced. It is a truly interdisciplinary publication useful to scholars, social movements, practitioners and members of governmental agencies and private companies undertaking research and/or executing projects focusing on sustainability from across Africa. As African nations strive to pursue the UN Sustainable Development Goals, it is imperative to cater for the information needs seen across the continent and foster the dissemination of experiences and case studies which may support both on-going and future efforts. The scope of the book is deliberately kept wide and we are looking for contributions across the spectrum of sustainable development from business and economics to arts and fashion, administration, environment, languages and media studies.
