Early Modern French Autobiography Nicolae Alexandru Virastau, 2021-04-06 This book offers a survey of the constitution of the French memoir tradition and explores in detail the works of four representative authors Philippe de Commynes Louise de Savoie Philippe de Cheverny and François de Bassompierre Works of self writing were usually printed under the title of memoirs and have been often considered a uniform genre These early forms of self writing were in fact highly heterogeneous works at the crossroads of multiple genres from the account book to the astrological diary Their writing printing and circulation challenge modern notions of autobiographical genres their authorship is often questionable and collective and they tended to be compiled in large collections for political ends without regard to the authors intention Strategy Before Clausewitz Beatrice Heuser, 2017-08-01 This collection of essays combines historical research with cutting edge strategic analysis and makes a significant contribution to the study of the early history of strategic thinking There is a debate as to whether strategy in its modern definition existed before Napoleon and Clausewitz The case studies featured in this book show that strategic thinking did indeed exist before the last century and that there was strategy making even if there was no commonly agreed word for it The volume uses a variety of approaches First it explores the strategy making of three monarchs whose biographers have claimed to have identified strategic reasoning in their warfare Edward III of England Philip II of Spain and Louis XIV of France The book then analyses a number of famous strategic thinkers and practitioners including Christine de Pizan Lazarus Schwendi Matthew Sutcliffe Raimondo Montecuccoli and Count Guibert concluding with the ideas that Clausewitz derived from other authors Several chapters deal with reflections on naval strategy long thought not to have existed before the nineteenth century Combining in depth historical documentary research with strategic analysis the book illustrates that despite social economic political cultural and linguistic differences our forebears connected warfare and the aims and considerations of statecraft just as we do today This book will be of great interest to students of strategic history and theory military history and IR in general **Mon Plaisir** Annette Cremer, Annette Caroline Cremer, 2015-05-20 Die Puppenstadt Mon Plaisir entstand in der ersten Hälfte des 18.
