The Worlding Project Doing Cultural Studies In The Era Of Globalization:

The Worlding Project Christopher Leigh Connery, Rob Wilson, 2007-10-30 Globalization discourse now presumes that the world space is entirely at the mercy of market norms and forms promulgated by reactionary U S policies An academic but accessible set of studies this wide range of essays by noted scholars challenges this paradigm with diverse and strong arguments Taking on topics that range from the medieval Mediterranean to contemporary Jamaican music from Hong Kong martial arts cinema to Taiwanese politics writers such as David Palumbo Liu Meaghan Morris James Clifford and others use innovative cultural studies to challenge the globalization narrative with a new and trenchant tactic called worlding The book posits that world literature cultural studies and disciplinary practices must be worlded into expressions from disparate critical angles of vision multiple frameworks and field practices as yet emerging or unidentified This opens up a major rethinking of historical givens from Rob Wilson s reinvention of The White Surfer Dude to Sharon Kinoshita s

Deprovincializing the Middle Ages Building on the work of cultural critics like Edward Said Gayatri Spivak and Kenneth Burke The Worlding Project is an important manifesto that aims to redefine the aesthetics and politics of postcolonial globalization with alternative forms and frames of global becoming **Worlding the Western** Neil Campbell, 2022-09-13 Worlding the Western views the fiction of the Western United States as a focal point for a reexamination of the consequences of the exceptionalism and closed borders of the Trump Era At a time of bounded individualism new nativism climate emergency and migration crises author Neil Campbell argues that fiction offers opportunities to challenge the dark side of globalization He proposes worlding as a different and more open form of politics Diversity disparity and opposition are central to the dynamic frictional fiction considered in this book The American West provides a powerful test case in which these features are present and yet historically have often been masked or denied in the rush toward unanimity and nation building Worlding is therefore a positive critical concept through which to view the notion of a single world under pressure

Worlding Multiculturalisms Daniel P. S. Goh, 2014-11-20 Worlding multiculturalisms are practices that infuse our arbitrary cultural lives with new things from other cultures in poetic ways to enable us to dwell and be at home with the complexity of the world In the context of the crisis of multiculturalism in the West and the growing obsolescence of state based multiculturalism in the postcolonial world this book offers examples of new practices of worlding multiculturalisms that go beyond issues of immigration integration and identity Contrasting Western and Asian notions of multiculturalism this book does not focus on state issues but rather highlights manifestations of cultural exchange The chapters draw on cultural studies approaches to document instances of worlding multiculturalisms that bring Asian cultures into conflict dialogue and settlement with each other Instances include an Asian American return novel set in Penang the cultural productions and street performances of democracy marches in Malaysia the campaigns to reclaim public spaces and citizenship rights by migrant domestic workers in Hong Kong the imaginary vistas opened up by Japanese popular culture consumed throughout

Asia the localisations of casino complexes in Macau and a shopping mall in Seoul and an old municipal cemetery being defended from urban redevelopment in Singapore Rather than merely globalizing forms of political diversity these are instances with the potential to transform social relations and the very terms of cultural exchange Worlding Multiculturalisms offers a truly interdisciplinary examination of multiculturalism in action As such it will appeal to students and scholars of cultural studies Asian studies Asian culture and society cultural anthropology and sociology and political sociology

Jordheim, Erling Sandmo, 2018-12-17 What is and what was the world Though often treated as interchangeable with the ongoing and inexorable progress of globalization concepts of world globe or earth instead suggest something limited and absolute This innovative and interdisciplinary volume concerns itself with this central paradox that the complex heterogeneous and purportedly transhistorical dynamics of globalization have given rise to the idea and reality of a finite and thus vulnerable world Through studies of illuminating historical moments that range from antiquity to the era of Google Earth each contribution helps to trace the emergence of the world in multitudinous representations practices and human experiences **Asianisms** Marc Frey, Nicola Spakowski, 2015-11-11 At the core of this book is a seemingly simple question

What is Asia In search of common historical roots traditions and visions of political cultural integration first Japanese then Chinese Korean and Indian intellectuals politicians and writers understood Asianisms as an umbrella for all conceptions imaginations and processes which emphasized commonalities or common interests among different Asian regions and nations This book investigates the multifarious discursive and material constructions of Asia within the region and in the West It reconstructs regional constellations intersections and relations in their national transnational and global contexts Moving far beyond the more well known Japanese Pan Asianism of the first half of the twentieth century the chapters investigate visions of Asia that have sought to provide common meanings and political projects in efforts to trace and construct Asia as a united and common space of interaction By tracing the imagination of civil society actors throughout Asia the volume leaves behind state centered approaches to regional integration and uncovers the richness and depth of complex identities within a large and culturally heterogeneous space
