Jackson,2015-09-27 Excerpt from Theory and Practice of Design An Advanced Text Book on Decorative Art The kind way in which a former book of mine Lessons on Decorative Design was received by critics teachers and students has led me to yield to a widely expressed desire that I should write a more advanced work on the same subject Hence the present volume which I trust may be of service to those for whom it is specially designed Like the previous volume it does not pretend to be a book of designs but a book on design not a picture book but a school text book The illustrations and diagrams have been selected and designed with the view of explaining principles and directing practice Many of them are reproductions of impromptu sketches drawn on the blackboard while lecturing to my classes Throughout the work I have insisted on the observance of principles regard for construction and the law of development About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *Theory and Practice of Design* Frank G.
