VW Beetle Specification Guide 1968-1980 Richard Copping, 2010-09-15 By the late 1960s the Beetle had enjoyed over twenty years of continuous production dominated its home market and conquered export markets all around the world Volkswagen's policy of constant improvement and refinement to a single model appeared to be vindicated However 1968 saw the death of Heinz Nordhoff who was the driving force behind the Beetle's evolution and continued success In many ways this was a watershed year the 1968 model introduced many significant changes to the car and it became inevitable that a replacement for the venerable Beetle would have to be developed This book charts the closing years of the Beetle's production life in Germany from the revamped 1968 model to the 1302 1303 the Cabriolet and the various Specials produced later Topics covered include Brief history 1935 1967 Full history 1968 1980 Comprehensive production survey Specification and detail changes by model year August 1967 to January 1980 Engine options Factory fitted optional equipment Paint and trim colors Special and export editions The Karmann Cabriolet

Volkswagen Beetle Richard Copping, 2014-09-10 Few cars have achieved the iconic status of Volkswagen's classic and much loved Beetle yet its origins are intertwined with the dark days of Nazism This book looks at those origins at the marque's initial post war rescue by the British and the effect of early VW Director General Heinz Nordhoff's forward looking desire to perfect one model rather than spread the company's talent over a range of designs at the impact of radical minded advertising campaigns and at the Beetle's never to be beaten production record for a single model of nearly 22 million cars Bringing the reader right up to the present day marque expert Richard A Copping recounts the Beetle's story in a lively and authoritative manner guaranteed to delight devotee and casual browser alike
