**The Original Intent : Why Ancient Wisdom Was Never Meant to Become Religion** Sandeep Chavan, 2025-05-05 The Original Intent is the fourth volume in The War of Thoughts series a groundbreaking intellectual odyssey by Sandeep that reimagines ancient philosophy not as dogma to be followed but as design to be remembered While earlier books in the series dismantled the illusions of knowledge the psyche and divinity this volume does something profoundly necessary it returns to the roots of wisdom Not to worship it but to question it reinterpret it and recover its forgotten purpose In this bold narrative Vyasa Zarathustra Confucius Krishna Patanjali Lao Tzu Buddha Jesus Shankaracharya and others reappear not as spiritual idols but as architects of insight Through dialogue and reflection Sandeep peels away centuries of

institutionalization to ask Were our ancestors building religions or designing survival manuals for the evolution of human consciousness This is not a book of rebellion It is a return A return to the original intent behind philosophies we now quote without context With unmatched clarity poetic insight and intellectual audacity The Original Intent challenges you to think beyond belief and reflect beyond rituals It reclaims the ancient for the modern reviving timeless intelligence in a world that desperately needs it If you re ready to question tradition without abandoning truth to honor the past without being trapped by it this book is your next step Because it s time we stopped following blindly and started listening wisely The Sayings of Confucius Confucius,2019-11-20 In The Sayings of Confucius also known as the Analects the philosopher presents a collection of aphorisms and dialogues that encapsulate the essence of his ethical teachings and views on governance morality and personal conduct Written in a succinct and often playful style these sayings reflect the Confucian emphasis on virtue ethics and the importance of propriety li and humaneness ren serving both as practical guidance for individual conduct and a foundational text for societal harmony The literary context of the work is deeply rooted in the socio political upheavals of 5th century BCE China providing insights into both the philosophical and historical milieu of the period Confucius a pivotal figure in Chinese philosophy was born into a time of widespread social disorder which heavily influenced his thoughts on morality and leadership His teachings encourage the cultivation of personal virtue as the basis for a just and ethical society Through anecdotal wisdom and paradoxical statements Confucius sought to impact both individuals and the state advocating for enlightened leadership based on moral righteousness rather than mere authority This foundational text is indispensable for understanding not only Confucian thought but also the broader philosophical landscape of East Asia I highly recommend The Sayings of Confucius for anyone interested in ethics philosophy and the interdependence of personal integrity and social order as it remains profoundly relevant today
