and repair instructions and also the specifications in the General Data GD section that wherever engine numbers are stated the data will be specific to that particular series Therefore the reader is encouraged to read the entire section prior to commencing any work paying close attention to the engine number sub sections Owners of the 650cc machines are subjected to considerable confusion surrounding the appropriate selection of the multitude of originals and reprints of the various 650cc manuals that have recently flooded the marketplace However the combination manual 99 0883 0889 is the most comprehensive manual for the entire line of UK and USA 650cc Unit Construction twins produced from 1963 through 1970 and covers all DU101 through DU90282 plus the later 1969 through 1970 alpha numeric series engines however it is somewhat scarce and difficult to find In addition many of the changes made during the production run would necessitate the use of both the individual manuals However those changes are combined in their entirety in the 99 0883 0889 manual and we are pleased to offer this reprint as a service to all 650cc Unit Construction owners The years and models covered are Thunderbird 6T 1963 1966 Trophy TR6 1963 1970 TR6R 1966 1970 TR6C 1966 1967 Bonneville T120 1963 1970 T120R 1963 1970 T120C 1963 1965 Thruxton 1965 TT 1964 1967
