Churchill, Roosevelt & Company Lewis E. Lehrman, 2017-01-30 During World War II the special relationship between the United States and Great Britain cemented the alliance that won the war But the ultimate victory of that partnership has obscured many of the conflicts behind Franklin Roosevelt's grins and Winston Churchill's victory signs the clashes of principles and especially personalities between and within the two nations Synthesizing an impressive variety of sources from memoirs and letters to histories and biographies Lewis Lehrman explains how the Anglo American alliance worked and occasionally did not work by presenting portraits and case studies of the men who worked the back channels and back rooms

the secretaries and under secretaries ambassadors and ministers responsible for carrying out Roosevelt's and Churchill's agendas while also pursuing their own and thwarting others. This was the domain of Joseph Kennedy, American ambassador to England, often at odds with his boss, spymasters William Donovan and William Stephenson, Secretary of State Cordell Hull, whom FDR frequently bypassed in favor of Under Secretary Sumner Welles, British ambassadors Lord Lothian and Lord Halifax, and above them all, Roosevelt and Churchill, who had the difficult task, not always well performed, of managing their subordinates and who frequently chose to conduct foreign policy directly between themselves. Scrupulous in its research and fair in its judgments, Lehrman's book reveals the personal diplomacy at the core of the Anglo-American alliance.

The Second World War Winston Churchill, 2000 **A Military History of the Cold War, 1944-1962** Jonathan M. House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared; yet it spawned a host of military engagements that affected millions of lives. This book is the first comprehensive multinational overview of military affairs during the early Cold War, beginning with conflicts during World War II in Warsaw, Athens, and Saigon, and ending with the Cuban Missile Crisis. A major theme of this account is the relationship between government policy and military preparedness and strategy. Author Jonathan M. House tells of generals engaging in policy confrontations with their governments' political leaders, among them Anthony Eden, Nikita Khrushchev, and John F. Kennedy, many of whom made military decisions that hamstrung their own political goals. In the pressure-cooker atmosphere of atomic preparedness, politicians as well as soldiers seemed instinctively to prefer military solutions to political problems. And national security policies had military implications that took on a life of their own. The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces. Desire to strengthen the North Atlantic alliance militarily accelerated the

rearmament of West Germany and the drive for its sovereignty In addition to examining the major confrontations nuclear and conventional between Washington Moscow and Beijing including the crises over Berlin and Formosa House traces often overlooked military operations against the insurgencies of the era such as French efforts in Indochina and Algeria and British struggles in Malaya Kenya Cyprus and Aden Now more than fifty years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe Churchill's Promised Land David Makovsky,Michael Makovsky,New Republic,2007-01-01 A comprehensive examination of Churchill s complex political diplomatic and intellectual response to Zionism **A Concise History of India** Barbara D. Metcalf,Thomas R. Metcalf,2002 Two distinguished historians Barbara Metcalf and Thomas Metcalf come together to write a new and accessible account of modern India The narrative which charts the history of India from the Mughals through the colonial encounter and independence to the present day challenges imperialist notions of an unchanging and monolithic India bounded by tradition and religious hierarchies Instead the book reveals a complex society which is constantly transforming and reinventing itself in response to political and social challenges The book is beautifully composed and richly illustrated It will be essential reading for anyone who wants to understand India her turbulent past and her present uncertainties **Twenty Cars that Defined the 20th Century** James Morrison,2024-02-02 On the 29 June 1914 Archduke Franz Ferdinand was assassinated in Sarajevo triggering events leading to the outbreak of the First World War Less well known is that the car he was in was a borrowed Graf Stift Double Phaeton that the route was published in advance and the decision to lower the hood was only taken at the last minute As with the other events in this book the car played a central role yet its history is largely unknown These cars not only had their own stories in terms of design ownership and the role they played but they are also a way of telling the story of the events themselves they are literally a vehicle for history In this book James Morrison takes 20 cars involved in twenty key 20th century world events and examines their involvement and history to provide a new angle and fascinating insights *The Second World War* W. S. Churchill (Sir),1954 **The Untold History of the United States** Oliver Stone,Peter Kuznick,2013-10-15 Companion to the documentary series of the same name
