Universities as Living Labs for Sustainable Development Walter Leal Filho,Amanda Lange Salvia,Rudi W. Pretorius,Luciana Londero Brandli,Evangelos Manolas,Fatima Alves,Ulisses Azeiteiro,Judy Rogers,Chris Shiel,Armindia Do Paco,2019-04-30 This book fills an important gap in the literature and presents contributions from scientists and researchers working in the field of sustainable development who have engaged in dynamic approaches to implementing sustainability in higher education It is widely known that universities are key players in terms of the implementation and further development of sustainability with some having the potential of acting as living labs in this rapidly growing field Yet there are virtually no publications that explore the living labs concept as it relates to sustainability and in an integrated manner The aims of this book which is an outcome of the 4th World Symposium on Sustainable Development at Universities WSSD U 2018 held in Malaysia in 2018 are as follows i to document the experiences of universities from all around the world in curriculum innovation research activities and practical projects as they relate to sustainable development at the university level ii to disseminate information ideas and experiences acquired in the execution of projects including successful initiatives and good practice iii to introduce and discuss methodological approaches and projects that seek to integrate the topic of sustainable development in the curricula of universities and iv to promote the scalability of existing and future models from universities as living labs for sustainable development The papers are innovative cross cutting and many reflect practice based experiences some of which may be replicable elsewhere Also this book prepared by the Inter University Sustainable Development Research Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC reinforces the role played by universities as living labs for sustainable

development *The Foundation Directory* Foundation Center,2006-03 The premier guide to America's top funders The new edition features key facts on the top 10 000 U S foundations by total giving indexed by name types of support subject field state key officials For ease of access over 1 100 entries new to this edition are also indexed Enhanced with more than 50 000 sample grants the Directory provides valuable insight into foundation giving priorities *Finweek* ,2006-07 Strategies for Facilitating Inclusive Campuses in Higher Education Jaimie Hoffman,Patrick Blessinger,Mandla Makhanya,2019-07-25 This volume provides educators with a global understanding of the successes and challenges associated with facilitating inclusive campuses in higher education amidst the growing diversity of students by providing evidence based strategies and ideas for implementing equity and inclusion at higher education institutions around the world **The Internet and the Emerging Importance of New Forms of Intellectual Property** Susy Frankel,Daniel Gervais,2016-05-01 The term intellectual property has come to include numerous intangible rights beyond the traditional Big Three patent trademark and copyright rights that force us to reconsider and maybe also change the object and purpose of intellectual property IP Not only do these rights generally have less solid normative footing and few if any well understood inherent limits but the borders of their misappropriation are hard to draw This groundbreaking book scrutinizes the existence of commonalities in this realm and poses the question of what risks and advantages accrue to such IP or IP like rights Sixteen distinguished contributors offer in depth analyses of such rights as the following trade secrets image and publicity rights geographical indications traditional knowledge protection of databases and sports rights and ambush marketing Recommendations and solutions investigated include the use of specialized courts or judges and of private standards There are also thoughtful considerations of practices such as forum shifting and an analysis of the special value of evolving Chinese law as a norm laboratory Two chapters discuss the complexities of enforcement Enforcement impacts substantive intellectual property and can be said to be its own form of IP Practitioners judges academics and policymakers will all welcome this work and value it highly Its contributors collectively take a giant step toward clarifying and synthesizing one of the most baffling areas of current law both internationally and at national level around the globe **Electrode Materials for Energy Storage and Conversion** Mesfin A. Kebede,Fabian I. Ezema,2021-11-16 This book provides a comprehensive overview of the latest developments and materials used in electrochemical energy storage and conversion devices including lithium ion batteries sodium ion batteries zinc ion batteries supercapacitors and conversion materials for solar and fuel cells Chapters introduce the technologies behind each material in addition to the fundamental principles of the devices and their wider impact and contribution to the field This book will be an ideal reference for researchers and individuals working in industries based on energy storage and conversion technologies across physics chemistry and engineering FEATURES Edited by established authorities with chapter contributions from subject area specialists Provides a comprehensive review of the field Up to date with the latest developments and research Editors Dr Mesfin A Kebede obtained his PhD in Metallurgical Engineering from Inha University

South Korea He is now a principal research scientist at Energy Centre of Council for Scientific and Industrial Research CSIR South Africa He was previously an assistant professor in the Department of Applied Physics and Materials Science at Hawassa University Ethiopia His extensive research experience covers the use of electrode materials for energy storage and energy conversion Prof Fabian I Ezema is a professor at the University of Nigeria Nsukka He obtained his PhD in Physics and Astronomy from University of Nigeria Nsukka His research focuses on several areas of materials science with an emphasis on energy applications specifically electrode materials for energy conversion and storage

Preparing 21st Century Teachers for Teach Less, Learn More (TLLM) Pedagogies Kumar, Pradeep, Keppell, Michael James, Lim, Chee Leong, 2019-12-27 The current trend of learner centeredness in education has been challenging many of the current ways of working especially in higher education institutions This rapid change in educational institutions demands educators acquire new sets of skills via continuous reflective practices Hence educators in higher education institutions are actively involved in research driven teaching and learning practices This change of role from mere content delivery to learning facilitators could be better achieved through a strong research driven community of practice Preparing 21st Century Teachers for Teach Less Learn More TLLM Pedagogies is a pivotal reference source that provides vital research on the application of practice based learning techniques in higher education institutions This publication establishes a platform for academics to share their best practices to promote teach less learn more pedagogies and learn reciprocally from the community of practice While highlighting topics such as interactive learning experiential technology and logical thinking skills this book is ideally designed for teachers instructional designers higher education faculty deans researchers professionals universities academicians and students seeking current research on transformative learning and future teaching practices

Proceedings of the 11th International Conference on Behaviour of Steel Structures in Seismic Areas Federico M. Mazzolani, Vincenzo Piluso, Elide Nistri, Antonio Formisano, 2024-07-02 This volume highlights the latest advances innovations and applications in the field of seismic design and performance of steel structures as presented by leading international researchers and engineers at the 11th International Conference on the Behaviour of Steel Structures in Seismic Areas STESSA held in Salerno Italy on July 8 10 2024 It covers a diverse range of topics such as behaviour of structural members and connections performance of structural systems mixed and composite structures energy dissipation systems self centring and low damage systems assessment and retrofitting codes and standards light gauge systems The contributions which were selected by means of a rigorous international peer review process present a wealth of exciting ideas that will open novel research directions and foster multidisciplinary collaboration among different specialists

Data Curation and Information Systems Design from Australasia Julie Nichols, Bharat Mehra, 2024-01-31 The need for decolonizing mismanagement practices in galleries libraries archives and museums of First Nations peoples materials and knowledge has been widely recognised Authors from Indigenous and non Indigenous backgrounds powerfully challenge entrenched

assumptions of knowledge capture and dissemination of the western academy

Metal Oxide-Based Heterostructures Naveen Kumar, Bernabé Marí Soucase, 2022-11-13 *Metal Oxide Based Heterostructures Fabrication and Applications* provides information on synthesis strategies structural and hierarchical features morphological characteristics of metal oxide based heterostructures and their diverse applications This book begins with an introduction to the various multidimensional heterostructures synthesis aspects and techniques used to control the formation of heterostructures Then the impact of synthesis routes on the formation of mixed metal oxide heterostructures and their properties are analyzed The effect of nonmetal doping metal doping and composites of metal oxide heterostructures on the properties of heterostructures is also addressed and that also includes opportunities for optimization of the material s performance for specific applications Special attention is given to the surface characteristics of the metal oxide heterostructures and their impact on the material s performance and the applications of metal oxide heterostructures in various fields such as environmental remediation sensing organic catalysis photovoltaics light emitting materials and hydrogen production Introduces key principles for metal oxide heterostructures their properties key characteristics and synthesis routes Emphasizes the relationship between synthesis strategies and material performance including optimization strategies such as tailoring the material s surface characteristics or structure Discusses metal oxide heterostructures and their application in lighting and displays energy environment and sensing

The Use of Armed Force in Occupied Territory Marco Longobardo, 2018-10-18 This book explores the international law framework governing the use of armed force in occupied territory through a rigorous analysis of the interplay between jus ad bellum international humanitarian law and international human rights law Through an examination of state practice and opinio juris treaty provisions and relevant international and domestic case law this book offers the first comprehensive study on this topic This book will be relevant to scholars practitioners legal advisors and students across a range of sub disciplines of international law as well as in peace and conflict studies international relations and political science This study will influence the way in which States use armed force in occupied territory offering guidance and support in litigations before domestic and international courts and tribunals

Theories of Change Karen Wendt, 2021-05-07 Today it has become strikingly obvious that companies no longer operate in an environment where only risk return and volatility describe the business environment The business has to deal with volatility plus uncertainty plus complexity and ambiguity VUCA that requires new qualities competencies frameworks and it demands a new mind set to deal with the VUCA environment in investment funding and financing This book builds on a new megatrend beyond resilience called anti fragility We have had the black swan financial crisis and the red swan COVID the Bank for International Settlement is preparing for regenerative capitalism block chain based analysis of financial streams and is aiming to prevent the Green Swan the climate crisis to lead to the next lockdown In the light of the UN 17 Sustainable Development Goals what is required is Theories of Change Written by experts working in the fields of sustainable finance impact investing

development finance carbon divesting innovation scaling finance impact entrepreneurship social stock exchanges alternative currencies Initial Coin Offerings ICOs ledger technologies civil action co creation impact management deep learning and transformation leadership the book begins by analysing existing Theories of Change frameworks from various disciplines and creating a new integrated model the meta framework In turn it presents insights on creating and using Theories of Change to redirect investment capital to sustainable companies while implementing the Sustainable Development Goals and the Paris Climate Agreement Further it discusses the perspective of planetary boundaries as defined by the Stockholm Resilience Institute and investigates various aspects of systems organizations entrepreneurship investment and finance that are closely tied to the mission ingrained in the Theory of Change As it demonstrates solutions that ensure the parity of profit people and planet through dynamic change can effectively address the needs of entrepreneurs and business By exploring these concepts and their application the book helps create and shape new markets and opportunities *Sustainable Business Models* Adam Jabłoński, 2019-01-25 This book is a printed edition of the Special Issue Sustainable Business Models that was published in Sustainability

Reviewing **Unisa Applications Form For 2015**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing. Within the pages of "**Unisa Applications Form For 2015**," an enthralling opus penned by a very acclaimed wordsmith, readers attempt an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve in to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
