Nebraska ,2004 Branding the American West Marian Wardle,Sarah E. Boehme,2016-02-17 Artists and filmmakers in the early twentieth century reshaped our vision of the American West In particular the Taos Society of Artists and the California based artist Maynard Dixon departed from the legendary depiction of the Wild West and fostered new images or

brands for western art This volume illustrated with more than 150 images examines select paintings and films to demonstrate how these artists both enhanced and contradicted earlier representations of the West Prior to this period American art tended to portray the West as a wild frontier with untamed lands and peoples Renowned artists such as Henry Farny and Frederic Remington set their work in the past invoking an environment immersed in conflict and violence This trademark perspective began to change however when artists enamored with the Southwest stamped a new imprint on their paintings The contributors to this volume illuminate the complex ways in which early twentieth century artists as well as filmmakers evoked a southwestern environment not just suspended in time but also permanent rather than transient Yet as the authors also reveal these artists were not entirely immune to the siren call of the vanishing West and their portrayal of peaceful yet exotic Native Americans was an expansion rather than a dismissal of earlier tropes Both brands cast a romantic spell on the West and both have been seared into public consciousness Branding the American West is published in association with the Brigham Young University Museum of Art Provo Utah and the Stark Museum of Art Orange Texas

The Rhetoric of Agitation and Control John W. Bowers, Donovan J. Ochs, Richard J. Jensen, David P. Schulz, 2009-06-30 This compelling text is a careful examination of the rhetoric of dissent The Rhetoric of Agitation and Control provides a framework for the study of agitation and responses to that agitation The third edition offers a profile of past and current movements such as the street theatre of Chicago in 1968 and the innovative and technological rhetorical techniques found in the Battle in Seattle The modus operandi of today's protests continues to evolve from that of the 1960s and 1970s As smartphones and the Internet replace tie dyed shirts and flower power contemporary students and scholars alike will find this edition of The Rhetoric of Agitation and Control to be a helpful tool in studying the progression of social and protest movements
