Time Is Running Short:

Naturally Late Will Johncock, 2019-04-15 Is time a natural reality that social symbols such as clocks and calendars merely contingently represent Lateness protocols seemingly exhibit such contingency for not all cultures regulate synchronization identically Just as social cultural time structures are interpreted to diverge from time s natural rhythm body modifications are often presented as social productions that divert human bodies from their naturally originated corporeal temporality A similar separation informs climate change discourses supposing a natural rhythm that industrialized culture has invaded the effects of which humans might be too late to arrest Interrogating this conceptual separation matters given that if certain times are considered to be more natural than others a situated politics emerges regarding the associated cultural structures Furthermore our personal investments in experiences of lateness which are embedded within social time seemingly contradict the constructionist impression that social time is merely a contingent misrepresentation of what time actually is Through Derridian deconstruction Merleau Pontian phenomenology and Bergsonian time philosophy complemented with voices from fields including object oriented ontology new materialism and new criticism this book re evaluates the timing of times from a philosophical perspective **Практика усного та писемного англійського мовлення: фразові**

A Crisis like No Other:

Understanding and Defeating Global Warming Second Edition Robert De Saro, 2024-12-20 A Crisis Like No Other

Understanding and Defeating Global Warming couples engaging and creative storytelling with accurate details to explain global warming It covers both the technical and human issues of global warming by addressing what s causing global warming and why people don t believe it exists The book tells readers how to convince others that global warming is not only real but life threatening and offers a clearly laid out path to solve it The book is accurate and carefully researched drawing on the author s thirty years of studying the science of global warming and the human psyche that surrounds it The author breaks down the subject into four parts which can be thought of as four mini books in one The first part covers the psychology of global warming denial how to defend ourselves against its lies and fake news and how to convince others of global warming s grave harm The second part describes exactly what global warming is The third answers the question what makes us so sure Finally the last part provides a road map showing us how to defeat global warming This book is comprehensive fast paced and easily accessible to readers from all walks of life It provides an overview of everything one needs to know about global warming and as such is an excellent survey of global warming topics In addition to being an easy and enjoyable read for the general public A Crisis Like No Other Understanding and Defeating Global Warming serves as a handy primer on climate change for environmental science classes *Memoir of a Pilgrim Preacher* Pilgrim
