Heineman has practiced in San Francisco for over 35 years working with children adults and families She is the founder and executive director of A Home Within Dr Heineman presents and publishes widely Interrupting Cycles of Early Loss, Trauma and Abuse Toni Heineman, 2015-12-22 This volume offers rich and detailed illustrations of the complex emotional needs of the children and parents in vulnerable families The chapters also highlight the psychological toll that working with at risk groups takes on therapists and others charged with providing care for children and families whose internal worlds are often fragile and external worlds are often dangerous and chaotic Above all the contributions whether taken together or individually make it abundantly clear that short term solutions are simply not possible for adults or children who have been traumatized many times over They also underscore the need for those working with traumatized groups to protect themselves from psychological exhaustion in order to maintain the emotional vitality that is necessary for effective work This book was originally published as a special issue of the Journal of Infant Child and Adolescent Psychotherapy *Treating Complex Trauma in Adolescents and Young Adults* John N. Briere, Cheryl B. Lanktree, 2012 Bad Blood reveals that Bastille is a synth driven band that isn't particularly arty something of a rarity during the electronic pop revival of the 2000s and 2010s Where many of their contemporaries used the glamour of synth pop's 80s heyday and electronic music's infinite possibilities to craft shiny pop fantasies Bastille builds on the glossy anthemic approach they set forth on the Laura Palmer EP the title track which is included here might also be the least arty song inspired by David Lynch's surreal soap opera Twin Peaks Early highlights like Pompeii These Streets and the title track boast panoramic choruses and sleek arrangements that hint at a kinship with Empire of the Sun and Delphic while the handclaps and popping bassline on the otherwise moody Icarus recall Hot Chip at their most confessional However most of Bad Blood suggests that Bastille are actually an electronically enhanced upgrade of sweeping British pop traditionalists like Keane or Coldplay The band updates Oblivion's piano balladry with ping ponging drums and contrasts Dan Smith's throaty singing and searching lyrics There's a hole in my soul Can you fill it with a tumbling beat on Flaws Like the aforementioned acts Bastille has a way with heartfelt melodies and choruses that resonate particularly on the driving Things We Lost in the Fire and Get Home where the slightly processed vocals also evoke Sia Imogen Heap and other electronic friendly singer songwriters While the band occasionally gets a little too self serious on the album's second half Bad Blood is a solid polished debut that fans of acts like Snow Patrol who don't mind more electronics in the mix might appreciate more than synth pop aficionados Heather Phares **Treating Complex Traumatic Stress Disorders in Children and Adolescents** Julian D. Ford, Christine A. Courtois, 2013-07-12 With contributions from prominent experts this pragmatic book takes a close look at the nature of complex psychological trauma in children and adolescents and the clinical challenges it presents Each chapter shows how a complex trauma perspective can provide an invaluable unifying framework for case conceptualization assessment and intervention amidst the chaos and turmoil of these young patients' lives A range of evidence based and promising therapies are reviewed and illustrated with vivid case vignettes

The volume is grounded in clinical innovations and cutting edge research on child and adolescent brain development attachment and emotion regulation and discusses diagnostic criteria including those from DSM IV and DSM 5 See also Drs Ford and Courtois s edited volume Treating Complex Traumatic Stress Disorders in Adults Second Edition and their authored volume Treatment of Complex Trauma A Sequenced Relationship Based Approach

The Oxford Handbook of Evidence-based Crime and Justice Policy Brandon Welsh, Steven N. Zane, Daniel P. Mears, 2024  
An evidence based approach to crime and justice policy can go a long way toward ensuring that the best available research is considered in decisions that bear on the public good However the term evidence based is characterized by a great deal of rhetoric Indeed there remains a marked disjuncture between calls for evidence based policy and an understanding of what it means for policy to be evidence based The calls for evidence based policy nonetheless provide a powerful foundation for propelling a movement toward bringing about rational cost effective and humane policies for the betterment of society This handbook showcases the state of research on evidence based crime and justice policy and the challenges that impede its creation and use The volume has three core objectives to promote new and productive ways to think about evidence based policy to demonstrate how research can contribute to and guide evidence based policy in juvenile justice criminal justice and alternatives to system responses and to identify strategies that can increase reliance on evidence based policy To meet these objectives each chapter is guided by several central questions What do we know about evidence based policy and practice in crime and justice How can we improve knowledge of evidence based policy and practice How can we promote more use of evidence based policy and practice Taken as a whole the volume emphasizes the critical need for policies that are grounded in high quality research that address critical research gaps and that fully acknowledge the limitations of what extant research can do to inform policy decisions
