Tree Of Life The Incredible Biodiversity Of Life On Earth Citizenkid:

Tree of Life Rochelle Strauss,2004-09-01 A dazzling and stunningly illustrated introduction to the diversity of life on our planet

Tree of Life Rochelle Strauss,2013-03 An illustrated and child friendly introduction to biodiversity Tree of Life shows how living things are classified into five kingdoms and how each has much to tell us about all aspects of life on our planet

The International Day of the Girl Jessica Dee Humphreys,Rona Ambrose,2020-09-01 An introduction to the International Day of the Girl and why it matters Celebrated every October 11th the United Nations International Day of the Girl was created to increase awareness of issues that affect girls and only girls and to encourage progress toward gender equality Nine stories inspired by the real life experiences of girls from all over the globe bring to light the importance of this day From gender based violence to illiteracy sanitation to child marriage each story is set in a different country and sensitively describes a situation in which the main character faces an inequity based on her gender and young age With realistic yet hopeful outcomes for each story girls are presented as reformers not victims Ordinary girls making a powerful difference these stories will stir the activist in every child

The Global Ocean Rochelle Strauss,2022-05-03 The global ocean is in trouble and kids can help Though we think of Earth's five oceans as separate and distinct they are actually a linked system of circulating water that is one single ocean the global ocean This comprehensive overview explores the global ocean's enormous influence on the planet as well as humans' often detrimental influence on the ocean But it also highlights many inspiring initiatives underway to restore and heal Earth's most important feature making its message of urgency as hopeful as it is accurate Kids will happily dive into these beautiful pages to learn about our magnificent global ocean and what they can do to help save it

Iqbal and His Ingenious Idea Elizabeth Suneby,2018-05-01 A boy a science project and an answer to a critical problem During monsoon season in Bangladesh Iqbal's mother must cook the family's meals indoors over an open fire even though the smoke makes her and the family sick So when Iqbal hears that his school's science fair has the theme of sustainability he comes up with the perfect idea for his entry he'll design a stove that doesn't produce smoke Has Iqbal found a way to win first prize in the science fair while providing cleaner air and better health for his family at the same time Sometimes it takes a kid to imagine a better idea make that an ingenious one

Child Soldier Michel Chikwanine,Jessica Humphrey,2015-09-01 Michel is like many other five year olds he has a loving family and spends his days going to school and playing soccer But in 1993 the Democratic Republic of Congo where Michel and his family live is a country in tumult One afternoon Michel and his friends are kidnapped by rebel militants and forced to become child soldiers Child Soldier is the sometimes heartbreaking but ultimately inspiring true story of the triumph of the human spirit

One Hen Katie Smith Milway,2008-02 This is the story of how changes happen in the world one person one family one community at a time

Walking for Water Susan Hughes,2021-06-01 A young boy finds a way to help his sister go to school Victor and his twin sister Linesi are close Only now that they are eight years old she is no longer able to go to school with him

Lines like the other older girls in their community must walk to the river to get water five times a day to help their mother farm. But Victor is learning about equality in school. He's beginning to realize how boys and girls are not treated equally. And that's not fair to his sister. So Victor comes up with a plan to help. Can one boy make a difference in an unequal world? It turns out he can.

How to Build Your Own Country Valerie Wyatt, 2009-08 Invites readers to imagine setting up their own country as a way of introducing the concepts of citizenship and politics, discussing such topics as starting a government, holding elections, making laws, writing a constitution, and keeping the peace. *If America Were a Village* David J. Smith, 2009-08 Learn about what types of people live in the United States. **Quill & Quire**, 2009 *Assembling the Tree of Life* Joel Cracraft, Michael J. Donoghue, 2004-07-22 This edited volume provides an authoritative synthesis of knowledge about the history of life. All the major groups of organisms are treated by the leading workers in their fields. With sections on The Importance of Knowing the Tree of Life, The Origin and Radiation of Life on Earth, The Relationships of Green Plants, The Relationships of Fungi, and The Relationships of Animals, this book should prove indispensable for evolutionary biologists, taxonomists, ecologists, and as a baseline sourcebook for organismic biologists, botanists, and microbiologists. An essential reference in this fundamental area. *The Great Tree of Life* Douglas Soltis, Pamela Soltis, 2018-11-14 The Great Tree of Life is a concise, approachable treatment that surveys the concept of the Tree of Life, including chapters on its historical introduction and cultural connection. The Tree of Life is a metaphor used to describe the relationships between organisms, both living and extinct. It has been widely recognized that the relationship between the roughly 10 million species on earth drives the ecological system. This work covers options on how to build the tree, demonstrating its utility in drug discovery, curing disease, crop improvement, conservation biology, and ecology, along with tactics on how to respond to the challenges of climate change. This book is a key aid on the improvement of our understanding of the relationships between species, the increasing and essential awareness of biodiversity, and the power of employing modern biology to build the tree of life. Provides a single reference describing the properties, history, and utility of The Tree of Life. Introduces phylogenetics and its applications in an approachable manner. Written by experts on the Tree of Life. Includes an online companion site containing various original videos to enhance the reader's understanding and experience. *Assembling the Tree of Life*, 2002 *Darwin's Tree of Life* Darwin's Tree of Life Michael Bright, 2022-11-10 Follow the evolution of plants and animals from the first living things 6 billion years ago to the animals living in the world today. Darwin's Tree of Life shows how the incredible diversity of life on earth came to be. This beautifully illustrated book starts from the dawn of life and shows the order in which plants and animals evolved, the different branches of The Tree of Life, and how plants and animals have changed over time in many amazingly different ways. Find out why crabs run sideways, which fish was the first to walk on land, why birds are similar to dinosaurs, why human brains are located in the head and not in our feet, which creatures can survive 30 years without eating, which mammal has the strongest bite of any predator, why

hedgehogs have spines Stunningly illustrated by illustrator and print maker Margaux Carpentier children will enjoy finding out about a whole world of wonderful animals on our amazing planet Earth The author Michael Bright has worked as an executive producer with the BBC s world renowned Natural History Unit based in Bristol and with its Science Unit in London He is author of over a hundred books on wildlife science travel and conservation including many for children His bestseller Africa Eye to Eye with the Unknown accompanied the popular television series presented by Sir David Attenborough He is the recipient of many international radio and television awards including the prestigious Prix Italia He is a graduate of the University of London and a corporate biologist and member of the Royal Society of Biology This book is perfect for the study of evolution adaptation and inheritance in KS2 and KS2 science and covers topics such as classification habitats and conservation

Kingdoms of Life Connected Priscilla Spears,2008-10 A resource for elementary and secondary teachers to aid in the transition to phylogenetic Tree of Life classification this provides a current overview of the diversity of life It includes lessons activity suggestions and a list of reviewed books and Internet sites for five kingdoms and viruses Cards illustrating the diversity of life may be removed and used in classification activities

What On Earth?: Trees Kevin Warwick,2018-04-05 Trees are an important part of our planet But what on earth are they all about Trees are not only one of the oldest living species on earth but they are also one of the most important Essential for life and providing us with food oxygen and shelter without trees our planet would be a very different place Discover all you need to know about these incredible plants and their place in our world in this fascinating book filled with fun experiments investigations and hands on tasks Find out how trees are made and how they grow so tall Then create a tree hotel and see what wildlife comes to stay This brilliant information book features a mixture of explore investigate and create pages which encourage children to learn about the natural world in an engaging hands on way

The Tree of Life Max Telford,2025-11-11 Taking readers inside one of science s most ambitious projects a leading evolutionary biologist offers a definitive portrait of life s family tree Are humans really fish Why are we the only animals with chins How much of our DNA do we share with the trillions of bacteria in our bodies For centuries scientists have chased the secrets of how life on our planet arose how it assumed its dazzling diversity of forms and how we humans are related to everything else on earth With increasingly sophisticated genetic methods now bringing us ever closer to answers leading evolutionary biologist Max Telford takes us inside one of science s greatest quests In the intellectually thrilling *The Tree of Life* Telford shows how reconstructing the web of relationships between all our planet s species from birds and butterflies to mushrooms and moose allows us to unravel the epic history of life on our planet In Telford s hands the many branched evolutionary trees that biologists assemble from Charles Darwin s first sketches to the vast computer generated diagrams scientists are building today become time machines that take us on a vivid journey through four billion years of life s history We meet long lost ancestors picturing them in the environment of a much younger earth and discover where we first acquired our backbones and nipples and conversely where we lost our tails

We learn how insects are actually crustaceans and how dogs and wolves are more closely related to whales than to the recently extinct Tasmanian wolves they so resemble Far from a dry representation of the dead the tree of life is a living shifting thing that constantly alters our perspective on the past present and future of life on earth For any reader fascinated by evolution and natural history The Tree of Life is an essential portal to the distant past and a window onto our collective origins

Green: The Story of Plant Life on Our Planet Nicola Davies, 2024-02 This tree doesn't look like it's doing very much it just stands there in the sunlight big and green But this tree is busy Starting with the secret workings of a tree this book transports readers billions of years into the past back to the moment when plant life first appeared on our planet Covering its evolution the steady emergence of fossil fuels and the extraordinary communities of plants around the world today Nicola Davies and Emily Sutton combine essential biology with a powerful message a call to protect the most precious colour on Earth green
