Trial Roger S. Haydock, John O. Sonsteng, 1991 Teaching Epidemiology Jørn Olsen, Rodolfo Saracci, Dimitrios Trichopoulos, 2010-06-25 Teaching epidemiology requires skill and knowledge combined with a clear teaching strategy and good pedagogic skills. The general advice is simple: if you are not an expert on a topic, try to enrich your background knowledge before you start teaching. Teaching Epidemiology, third edition, helps you to do this and, by providing the world expert teacher's advice on how best to structure teaching, gives a unique insight into what has worked in their hands. The book will help you plan your own tailored teaching program. The book is a guide to new teachers in the field at two levels: those teaching basic courses for undergraduates and those teaching more advanced courses for students at postgraduate level. Each chapter provides key concepts and a list of key references. Subject-specific methodology and disease-specific issues from cancer to genetic epidemiology are dealt with in detail. There is also a focused chapter on the principles and practice of computer-assisted learning.
