The Heart Healers James Forrester, 2024-06-04 From a renowned surgeon a stunning survey of cardiology's Golden Age and the misfits who made it so a book of marvels Publishers Weekly starred review By the middle of the twentieth century heart disease was killing millions and as with the Black Death centuries before physicians stood helpless Visionaries though had begun to make strides decades earlier daring to defy the medical wisdom of their day On Sept 7 1895 Ludwig Rehn successfully sutured the heart of a living man with a knife wound to the chest for the first time Once it was deemed possible to perform surgery on the heart others followed In 1929 Dr Werner Forssman inserted a cardiac catheter in his own arm and forced the x ray technician on duty to take a photo as he successfully threaded it down the vein into his own heart and lived On June 6 1944 D Day another momentous event occurred far from the Normandy beaches Dr Dwight Harken sutured the shrapnel injured heart of a young soldier saving his life and the term cardiac surgeon born In *The Heart Healers* world renowned cardiac surgeon Dr James Forrester tells the story of these rebels and the risks they took with their own lives and the lives of others to heal the most elemental of human organs The result is a compelling chronicle of a disease and its cure a disease that is still with us but that is slowly being conquered by healers Forrester brings history to life and explains complex procedures for lay readers in this excellent book Library Journal starred review One of the great medical storytellers of our era Eric Topol cardiologist and author of *Deep Medicine*

The Man Who Touched His Own Heart Rob Dunn, 2015-02-03 The secret history of our most vital organ the human heart *The Man Who Touched His Own Heart* tells the raucous gory mesmerizing story of the heart from the first explorers who dug up cadavers and plumbed their hearts chambers through the first heart surgeries which had to be completed in three minutes before death arrived to heart transplants and the latest medical efforts to prolong our hearts lives almost defying nature in the process Thought of as the seat of our soul then as a mysteriously animated object the heart is still more a mystery than it is understood Why do most animals only get one billion beats And how did modern humans get to over two billion effectively letting us live out two lives Why are sufferers of gingivitis more likely to have heart attacks Why do we often undergo expensive procedures when cheaper ones are just as effective What do Da Vinci Mary Shelley and contemporary Egyptian archaeologists have in common And what does it really feel like to touch your own heart or to have someone else's beating inside your chest Rob Dunn's fascinating history of our hearts brings us deep inside the science history and stories of the four chambers we depend on most

Drug Discovery in Japan Sadao Nagaoka, 2019-10-24 This book analyzes the drug discovery process in Japan based on detailed case studies of 12 groups of 15 innovative drugs It covers the first statin in the world up to the recent major breakthrough in cancer therapy the recent immune checkpoint

inhibitor the scientific discovery for which a 2018 Nobel Prize in Physiology or Medicine was awarded to Prof Tasuku Honjo Kyoto University The book shows the pervasive high uncertainty in drug discovery frequent occurrences of unexpected difficulties discontinuations serendipities and good luck significantly because drug discovery starts when the underlying science is incomplete Thus there exist dynamic interactions between scientific progress and drug discovery High uncertainty also makes the value of an entrepreneurial scientist high Such scientists fill the knowledge gaps by absorbing external scientific progress and by relentless pursuit of possibilities through their own research often including unauthorized research to overcome crises Further high uncertainty and its resolution significantly characterize the evolution of competition in the drug industry The patent system promotes innovation under high uncertainty not only by enhancing appropriability of R D investment but also by facilitating the combination of knowledge and capabilities among different firms through disclosure Understanding such a process significantly benefits the creation of innovation management and policy practices
