The 1840 translation of the Gospel of Luke as a technology of power Itumeleng D. Mothoagae ,2024-07-26 In this book the author aims to explore the impact of 19th century translations of the Bible into indigenous languages with a specific focus on the Setswana translation The translations have had a profound effect on the religio cultural practices of the indigenous people leading to erosion and alteration of their traditions and identities I argue that it is crucial to consider the translator s intentions and the associated literature such as journals and letters to understand the translation process comprehensively The Setswana Bible was the first to be translated in Africa and tracing the intentions of Robert Moffat the first translator is imperative to understanding the impact of the translation on the receptor culture The methodology adopted is interdisciplinary drawing from linguistics African languages history English literature cultural studies black studies and theology I analyse the impact of the 1840 Gospel of Luke in the context of Setswana culture in South Africa and my findings demonstrate that translations cannot be distinct from the translator To gain a deep understanding of the implications of such texts I adopt a methodology that analyses significant historical literature and primary sources including the records and works of The British and Foreign Bible Society The History of the London Missionary Society and the journals letters and writings of missionaries such as Robert Moffat and John Campbell

Philippe de Vigneulles and the Art of Prose Translation Catherine M. Jones,2008 The cultural agenda of Philippe de Vigneulles

translator of the Lorraine epic cycle into Middle French prose Over fifty chansons de geste were reworked into prose between the fourteenth and sixteenth centuries for patrons and audiences who demanded updated de rhymed versions of heroic songs While most prose translations were commissioned by noble patrons Philippe de Vigneulles 1471 1527 a cloth merchant of Metz operated outside the system of patronage on self imposed projects with a pronounced civic bias His translation of the monumental Lorraine epic cycle into Middle French prose afforded him an opportunity to reconfigure the city s legendary past and validate the concerns of a prosperous merchant class The craft of mise en prose is examined in the context of the author s larger cultural agenda as he weaves the epic legend into his civic personal and aesthetic preoccupations This perspective illuminates a previously neglected sphere of medieval literary production revealing fundamental assumptions about the epic tradition and the power of prose in urban culture CATHERINE M JONES is Associate Professor of French and Proven al at the University of Georgia

John Collins, Wayne Grudem, Vern S. Poythress, Leland Ryken, Bruce Winter, 2005-11-08 Which translation do I choose In an age when there is a wide choice of English Bible translations the issues involved in Bible translating are steadily gaining interest Consumers often wonder what separates one Bible version from another The contributors to this book argue that there are significant differences between literal translations and the alternatives The task of those who employ an essentially literal Bible translation philosophy is to produce a translation that remains faithful to the original languages preserving as much of the original form and meaning as possible while still communicating effectively and clearly in the receptors languages *Translating Truth* advocates essentially literal Bible translation and in an attempt to foster an edifying dialogue concerning

translation philosophy It addresses what constitutes good translation common myths about word for word translations and the importance of preserving the authenticity of the Bible text The essays in this book offer clear and enlightening insights into the foundational ideas of essentially literal Bible translation
