Conference, 1986-10 In this volume are papers selected from the 1982 Annual Conference of the American Association for the Study of Mental Imagery as well as several others that were later invited This conference a yearly one was held at the University of Southern California Participants and invited speakers come from around the country and present current material on the status of theory research and practice involving imagery These conferences began in 1979 and typically have attracted two hundred or more persons In the opening paper by Paul Bakan we have a discussion of imagery from an historical perspective He traces the various attitudes toward imagery starting with

biblical times and argues that the behaviorist revolution and its antagonism towards imagery were likely reflective of more than a negative attitude toward imagery as a consequence of its being associated with consciousness and mentalistic concepts. We have apparently been ambivalent towards imagery over the millennia. He closes with some suggestions of how we may more happily resolve this situation. *Resurgence*, 1993 **Harvard Magazine**, 1986 Chicorel Index to Poetry in Anthologies and Collections in Print Marietta Chicorel, 1974 **The New-York Mirror**, 1833 **New Woman**, 1990
