1 1 Positioning of the Dissertation During this century increasing globalization and technological progress has forced companies to undergo rapid and dramatic changes for some a threat for others it offers new opportunities Companies have to survive in a Darwinian marketplace where the principle of natural selection applies Marketplace success goes to those companies that are able to produce marketable value Le products and services that others are willing to purchase Kotler 1997 Every company must be engaged in new product development to create the new products customers want because competitors will do their best to supply them Besides offering competitive advantages new products usually lead to sales growth and stability As household incomes increase and consumers become more selective fmns need to know how consumers respond to different features and appeals Successful products and services begin with a thorough understanding of consumer needs and wants Stated otherwise companies need to know about consumer preferences to manufacture tailor made products consumers are willing to buy **Japan's Software Factories** Michael A. Cusumano,1991-03-07 Though Japan has successfully competed with U S companies in the manufacturing and marketing of computer hardware it has been less successful in developing computer programs This book contains the first detailed analysis of how Japanese firms have tried to redress this imbalance by applying their skills in engineering and production management to software development Cusumano focuses on the creation of software factories in which large numbers of people are engaged in developing software

in cooperative ways i.e individual programs are not developed in isolation but rather utilize portions of other programs already developed whenever possible and then yield usable portions for other programs being written Devoting chapters to working methods at System Developing Corp Hitachi Toshiba NEC and Fujitsu and including a comparison of Japanese and U S software factories Cusumano's book will be important reading for all people involved in software and computer technology as well as those interested in Japanese business and corporate culture
