Truth in Advertising John Kenney,2013-01-22 F Scott Fitzgerald said that there are no second acts in American lives I have no idea what that means but I believe that in quoting him I appear far more intelligent than I am I don t know about second acts but I do think we get second chances fifth chances eighteenth chances Every day we get a fresh chance to live the way we want FINBAR DOLAN is lost and lonely Except he doesn t know it Despite escaping his blue collar Boston upbringing to carve out a mildly successful career at a Madison Avenue ad agency he s a bit of a mess and closing in on forty He s recently called off a wedding Now a few days before Christmas he s forced to cancel a long postponed vacation in order to write produce and edit a Super Bowl commercial for his diaper account in record time Fortunately it gets worse Fin learns that his long estranged and once abusive father has fallen ill And that neither of his brothers or his sister intend to visit It s a wake up call for Fin to reevaluate the choices he s made admit that he s falling for his coworker Phoebe question the importance of diapers in his life and finally tell the truth about his past *Truth in Advertising* is debut novelist John Kenney s wickedly funny honest at times sardonic and ultimately moving story about the absurdity of corporate life the complications of love and the meaning of family

The English Novel, Vol I Richard W. F. Kroll,2014-07-21 The English Novel Volume I 1700 to Fielding collects a series of previously published essays on the early eighteenth century novel in a single volume reflecting the proliferation of theoretical approaches since the 1970s The novel has been the object of some of the most exciting and important critical speculations and the eighteenth century novel has been at the centre of new approaches both to the novel and to the period between 1700 and 1750 Richard Kroll s introduction seeks to frame the contributions by reference to the most significant critical discussions These include the question of whether and how we can talk about the rise of the novel the vexed question of what might constitute a novel the relationship between the novel and possibly competing genres such as history or the romance

the relationship between early male writers like Defoe and popular novels by women in the early eighteenth century the general ideological role played by novels relative to eighteenth century culture are they means of ideological conscription or liberation poststructuralist analyses of identity and gender and the emergence of sentimental and domestic codes after Richardson Since the modern European novel is often thought to have been formed in this period these debates have clear implications for students of the novel in general as well as for those interested in the early enlightenment Headnotes place each essay within the map of these wider concerns and the volume offers a useful further reading list Taken as a whole this collection encapsulates the state of criticism at the present moment *Printers' Ink* ,1892 **Book Review Digest** ,1927
