the tools to communicate successfully with the child's guardians or teachers including easy to read handouts that detail what kind of behaviors are not cause for concern and which behaviors mean it's time to seek help As an aid to practitioners this book matches developmental ages with appropriate evidence based mental health interventions **Every Child a Learner** Aldene Fredenburg, Society for Developmental Education, Peterborough, NH., 1996 The main objective of this sourcebook is to support K-6 educators in creating child centered classrooms where all children can learn and all children can succeed

Raising a Responsible Child: Elizabeth Ellis, 1996-01-01 It has often been said Give a man a fish and he has food for a day Teach him to fish and he can provide for himself over a lifetime Raising a Responsible Child explains the phenomenon of the overindulgent parent who helps and protects too much and the underdeveloped child who never really learns to stand on his or her own feet Today many parents are especially prone to shower their children with love and attention and attempt to minimize stress by doing for them In the scurry of modern life parents often can't resist giving in to children's demands or solving their problems just to keep the peace While this is basically a loving approach it does not teach children how to be responsible and independent Parents learn the hard way that their overindulgence does more harm than good their children will only come to them with more demands and act helpless in the face of new problems If you find yourself entrenched in this pattern you can change by using a system of consistent straight forward and logical rules every day You can teach your children to take responsibility for their actions and earn their privileges and you will find perhaps to your surprise that they are willing and ready to do so Some of the issues this book will help you to deal with are The whiny and overly demanding preschooler The small child who throws tantrums in public to get his way The older child who is inconsiderate of family members The teenager who is constantly late for school The young adult who can't get her life together and mooches off her parents indefinitely Many parents discover that the tried and true methods detailed here not only help their children handle emotions in a more mature and constructive manner but also result in higher self esteem and a happier outlook on life

Right From Wrong Michael Riera, Joseph Di Prisco, 2009-02-23 Does your child have a conscience Is he remorseful when caught in a lie Very high on any wise list of dreams for our children is the hope that they become people of integrity But integrity is not simply something that happens as a result of unconditional love healthy genes or good luck it emerges if it does because parents make it a priority to exercise influence in this arena Combining stories of children experiencing the day to day struggles of growing up with compassionate in depth analysis and pragmatic counsel Right From Wrong makes nurturing the qualities of integrity tangible to parents and to the others who might be actively involved in guiding a child's moral life Through the authors wise and discerning eyes we witness children as they experience loss or sadness react to sibling rivalries schoolyard violence and academic pressures or even while they interact at the family dinner table The ways in which parents use listening praise discipline honesty and consequences to react to these situations reinforces a child's sense of right and wrong from these choices readers will learn valuable lessons about a parent's power to nurture character
