The Definitive Guide to Samba 3 Roderick Smith,2004-04-05 If you're familiar with Unix administration TCP/IP networking and other common Unix servers and you want to learn how to deploy Samba this book is ideal for you. With this book as a guide you can quickly configure a basic Samba server and then move on to learn about Samba's more exotic features including those new to Samba 3.0. The topics in this book are approached from both an experienced Unix user and an administrator's point of view to help you optimize Samba. Samba is an efficient file and print server that enables you to get the most out of your computer hardware. In Samba 3.0 many important features have been added particularly in the realm of domain administration and membership such as improved support for membership in Windows 200x domains and a wider array of authentication options. Samba also boasts several advanced features with which you can perform very complex tasks. For instance Samba can control an NT domain burn CD-Rs with drag and drop operations from the client and function as part of a network backup system. The Samba dance after which the server is named is known for its liveliness and the server is similarly energetic and dynamic. So join in you may make a misstep or two but this book will help you avoid making too many and you'll soon be doing the TCP/IP Samba along with the best

Using csh & tcsh Paul DuBois,1995-07-01 If you use UNIX you probably use csh to type commands even if you ve never heard of it It s the standard shell command line on most UNIX systems tcsh is an enhanced version that s freely available and highly recommended Using csh tcsh describes from the beginning how to use these shells interactively More important it shows how to get your work done faster with less typing Even if you ve used UNIX for years techniques described in this book can make you more efficient You ll learn how to Make your prompt tell you where you are no more pwd Use what you ve typed before history Type long command lines with very few keystrokes command and filename completion Remind yourself of filenames when in the middle of typing a command Edit a botched command instead of retyping it This book does not cover programming or script writing in csh or tcsh because the tasks are better done with a different shell such as sh the Bourne shell or a language like Perl **The Complete Guide to the NEXTSTEP™ User Environment** Michael B.

Shebanek,1993-09-17 This book is about the advanced object oriented NEXTSTEP™ user environment for NeXT and Intel based computers It is intended for those who already own a computer running NEXTSTEP and want to quickly learn what it can do and how to get the most out of it with the least effort It s also for those who are considering the purchase of NEXTSTEP but want to learn more about how it works before making an investment Why a book on NEXTSTEP When I set out to learn how to use NEXT STEP several years ago I found it extremely difficult to find information from the usual sources such as books magazines user groups and authorized dealers NEXTSTEP users were scarce and finding a computer store

that sold NeXT related products was even more rare There were also only a handful of NeXT user groups in existence and those that did exist met so far away that joining one of them was impractical The manuals I received from NeXT were helpful but I had the feeling there must be something more to it than what was written in the User s Reference It didn t describe many of the shortcuts that experienced users had found or the public domain and shareware utilities that were popular and how I could use them to make my work even easier and more fun Java in a Nutshell David Flanagan,1996 Includes 5 bestselling Java books on CD ROM Cover *Maven: The Definitive Guide* Sonatype Company,2008-09-24 For too long developers have worked on disorganized application projects where every part seemed to have its own build system and no common repository existed for information about the state of the project Now there s help The long awaited official documentation to Maven is here Written by Maven creator Jason Van Zyl and his team at Sonatype Maven The Definitive Guide clearly explains how this tool can bring order to your software development projects Maven is largely replacing Ant as the build tool of choice for large open source Java projects because unlike Ant Maven is also a project management tool that can run reports generate a project website and facilitate communication among members of a working team To use Maven everything you need to know is in this guide The first part demonstrates the tool s capabilities through the development from ideation to deployment of several sample applications a simple software development project a simple web application a multi module project and a multi module enterprise project The second part offers a complete reference guide that includes The POM and Project Relationships The Build Lifecycle Plugins Project website generation Advanced site generation Reporting Properties Build Profiles The Maven Repository Team Collaboration Writing Plugins IDEs such as Eclipse IntelliJ and NetBeans Using and creating assemblies Developing with Maven Archetypes Several sources for Maven have appeared online for some time but nothing served as an introduction and comprehensive reference guide to this tool until now Maven The Definitive Guide is the ideal book to help you manage development projects for software web applications and enterprise applications And it comes straight from the source **C++** Gregory Satir,Doug Brown,1995 A primer for C programmers transitioning to C and designed to get users up to speed quickly this book tells users just what they need to learn first Covering a subset of the features of C the user can actually use this subset to get familiar with the basics of the language The book includes sidebars that give overviews of advanced features not covered *Learning GNU Emacs* Debra Cameron,Bill Rosenblatt,Eric S. Raymond,1996 Describes all of the new features of GNU Emacs 19 30 including fonts and colors pull down menus scrollbars enhanced X Window System support and correct bindings for most standard keys Gnus a Usenet newsreader and ange ftp mode a transparent interface to the file transfer protocol are also described **Essential SNMP** Douglas R. Mauro,Kevin James Schmidt,Kevin J. Schmidt,2001 A practical introduction to SNMP for system network administrators Starts with the basics of SNMP how it works and provides the technical background to use it effectively

Your Unix The Ultimate Guide 1st Edition Introduction

In the digital age, access to information has become easier than ever before. The ability to download Your Unix The Ultimate Guide 1st Edition has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Your Unix The Ultimate Guide 1st Edition has opened up a world of possibilities. Downloading Your Unix The Ultimate Guide 1st Edition provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Your Unix The Ultimate Guide 1st Edition has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Your Unix The Ultimate Guide 1st Edition. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Your Unix The Ultimate Guide 1st Edition. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Your Unix The Ultimate Guide 1st Edition, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves, individuals should ensure

their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Your Unix The Ultimate Guide 1st Edition has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.
