FIRST TRIAD - Contemplate and Adore God Directly

1. SERAPHIM

(Isa 6:1-7)

are the highest order of angels in the heavens. In other words, they are the closest to God. Their role is to exclusively worship the Lord and give thanks unto Him.

2. CHERUBIM

(Ex 25:19, Gen 3:24, Ezek 1:10)

The Bible describes this type as nobly angelic, but mighty beings that encircle God's throne. They are assigned to protect special places and things including the Ark of the Covenant and the entrance to the Garden of Eden.

3. THRONES

(Ezek 10:17, Col 1:16)

dispense God's divine justice and maintain harmony in all of the universal laws of the cosmos.

Thrones And Dominions:

Warfare Tony Evans, 2018-09-04 You're at war. Are you winning? Your fight is not with the problems you can see: depression, a broken marriage, addiction, or financial troubles. These are just the symptoms, the true disease. The true battle is against the devil and his armies. But the devil is not afraid of mere humans like you and me. So how are we supposed to fight? More importantly, how are we supposed to win? Warfare is a guide to fighting the battles that matter. In it, you'll learn to identify how spiritual warfare is impacting your soul, family, church, and culture; who the armies are and what role they play; God, angels, demons, and the devil; how to use the arsenal of spiritual weapons God provides; how to claim the victory God has already won. When we fight the right battles with the right weapons, fear gives way to courage, futility gives way to purpose, and failure gives way to victory. **An Explication of the Gospel-Theism and the Divinity of the Christian Religion.**

Craig argues that there are no abstract objects, whereas Van Inwagen argues that there are. Their exchange explores various arguments about the existence and nature of abstract objects. They focus especially on whether our ordinary and scientific thought and talk commit us to abstract objects, surveying the options available to us and the objections each faces. The debate covers central problems and methods in metaphysics and also delves into theological questions raised by abstract objects. **Key Features:** Showcases the presentation and defense of two points of view on the existence of abstract objects from two of the world's leading philosophers. Letters to Philemon, the Colossians, and the Ephesians Ben Witherington, 2007-11-19 This volume completes Ben Witherington's contributions to the set of Eerdmans socio-rhetorical commentaries on the New Testament. In addition to the usual features of these commentaries, Witherington offers an innovative way of looking at Colossians, Ephesians, and Philemon as interrelated documents written at different levels of moral discourse. Colossians is first-order moral discourse, the opening gambit; Ephesians is second-order moral discourse, what one says after the opening salvo to the same audience; and Philemon is third-order moral discourse, what one says to a personal friend or intimate. Witherington successfully analyzes these documents as examples of Asiatic rhetoric, explaining the differences in style from earlier Pauline documents. He further

shows that Paul is deliberately engaging in the transformation of existing social institutions As always Witherington s work is scholarly and engaging With detailed Closer Look sections The Letters to Philemon the Colossians and the Ephesians is perfect for the libraries of clergy biblical scholars and seminaries *Explaining Christian Origins and Early Judaism* Petri Luomanen, Ilkka Pyysiäinen, Risto Uro, 2007-11-30 Cognitive science of religion is a radically new paradigm in the study of religion Apart from psychology and anthropology of religion also historians of religion have shown increasing interest in this approach This volume is groundbreaking in combining cognitive analysis with historical and social scientific approaches to biblical materials Christian origins and early Judaism The book is in four parts an introduction to cognitive and social scientific approaches applications of cognitive science applications of conceptual blending theory and applications of socio cognitive analyses The book will be of interest for historians of religion biblical scholars and those working in the cognitive science of religion
