Battle in Medieval German Literature Vickie L. Ziegler, 2004 Well after the condemnation of ordeals by the Fourth Lateran Council the Kunigunde legend preserves the ordeal by fire in a sort of hagiographic amber much as it was portrayed in the mid twelfth century Richardis legend while Stricker's short secular burlesque *The Hot Iron* written in the mid thirteenth century makes sport of this formerly serious legal proceeding reflecting the almost immediate abandonment of trial by fire as a legal proof in many areas after the council's decision

Cohen, 1992-10-01 The book is an analysis of the cultural and social functions of law legal processes and legal rituals in late medieval Northern France It is centered around a time and a place in which European law underwent some major

Victory Cian O'Driscoll, 2019-11-27 Committing one's country to war is a grave decision Governments often have to make tough calls but none are quite so painful as those that involve sending soldiers into harm's way to kill and be killed The idea of just war informs how we approach and reflect on these decisions It signifies the belief that while war is always a wretched enterprise it may in certain circumstances and subject to certain restrictions be justified Boasting a long history that is usually traced back to the sunset of the Roman Empire it has coalesced over time into

a series of principles and moral categories e g just cause last resort proportionality etc that will be familiar to anyone who has ever entered a discussion about the rights and wrongs of war Victory The Triumph and Tragedy of Just War focuses both on how this particular tradition of thought has evolved over time and how it has informed the practice of states and the legal architecture of international society This book examines the vexed position that the concept of victory occupies within this framework Evidence Matters Susan Haack,2014-07-28 Susan Haack brings her distinctive work in theory of knowledge and philosophy of science to bear on real life legal issues **Bishops, Authority and Community in Northwestern**

Europe, c.1050-1150 John S. Ott,2015-12 This important study of episcopal office and clerical identity in a socially and culturally dynamic region of medieval Europe examines the construction and representation of episcopal power and authority in the archdiocese of Reims during the sometimes turbulent century between 1050 and 1150 Drawing on a wide range of diplomatic hagiographical epistolary and other narrative sources John S Ott considers how bishops conceived of and projected their authority collectively and individually In examining episcopal professional identities and notions of office he explores how prelates used textual production and their physical landscapes to craft historical narratives and consolidate local and regional memories around ideals that established themselves as not only religious authorities but also cultural arbiters This study reveals that far from being reactive and hostile to cultural and religious change bishops regularly grappled with and sought to affect positively and to their advantage new and emerging cultural and religious norms

Expectations of Justice in the Age of Augustine

Kevin Uhalde, 2013-03-26 Augustine bishop of Hippo between 395 and 430 and his fellow bishops lived and worked through massive shifts in politics society and religion Christian bishops were frequently asked to serve as intellectuals legislators judges and pastors roles and responsibilities that often conflicted with one another and made it difficult for bishops to be effective leaders Expectations of Justice in the Age of Augustine examines these roles and the ways bishops struggled to fulfill or failed to fulfill them as well as the philosophical conclusions they drew from their experience in everyday affairs such as oath swearing and in the administration of penance Augustine and his near contemporaries were no more or less successful at handling the administration of justice than other late antique or early medieval officials When bishops served in judicial capacities they experienced firsthand the complex inner workings of legal procedures and social conflicts as well as the fallibility of human communities Bishops represented divine justice while simultaneously engaging in and even presiding over the sorts of activities that animated society business deals litigations gossip and violence but also made justice hard to come by Kevin Uhalde argues that serving as judges even informally compelled bishops to question whether anyone could be guaranteed justice on earth even from the leaders of the Christian church As a result their ideals of divine justice fundamentally changed in order to accommodate the unpleasant reality of worldly justice and its failings This philosophical shift resonated in Christian thought and life for centuries afterward and directly affected religious life from the performance of penance to the way people conceived of the Final Judgment
