American Motherhood, 1910 **Facilitating Developmental Attachment** Daniel A. Hughes, 2000-06-01 This book shows how to work successfully with emotional and behavioral problems rooted in deficient early attachments In particular it addresses the emotional difficulties of many of the foster and adopted children living in our country who are unable to form secure attachments Traditional interventions which do not teach parents how to successfully engage the child frequently do not provide the means by which the seriously damaged child can form the secure attachment that underlies behavioral change Dr Daniel Hughes maps out a treatment plan designed to help the child begin to experience and accept from both the therapist and the parents affective attunement that he or she should have received in the first few years of life Hughes approach includes Using foster and adopted parents as co therapists Teaching differentiation between old and new parents Overcoming the perception of discipline as abusive Framing misbehavior discipline conflicts and parental authority as important aspects of a child's learning to trust All children at the core of their beings need to be attached to someone who considers them to be very special and who is committed to providing for their ongoing care Children who lose their birth parents desperately need such a relationship if they are to heal and grow This book shows therapists how to facilitate this crucial bond A Jason Aronson Book **Golden Days for Boys and Girls**, 1883 **History Without the Boring Bits** Ian Crofton, 2013-09-03 Conventional chronologies of world history concentrate on the reigns of kings and queens the dates of battles and treaties the publication dates of great books the completion of famous buildings the deaths of iconic figures and the years of major discoveries But there are other more interesting stories to tell stories that don't usually get into the history books but which can nevertheless bring the past vividly and excitingly to life Imagine a history lesson that spares you the details of such seminal events as the 11th century papal imperial conflict that fails to say much at all about the 1815 Congress of Vienna and that neglects entirely to mention the world changing moment that was the 1521 Diet of Worms Imagine instead a book that tells you the date of the ancient Roman law that made it legal to break wind at banquets the

name of the defunct medieval pope whose putrefying corpse was subjected to the humiliation of a trial before a court of law
the identity of the priapic monarch who sired more bastards than any other king of England and last but not least the date of
the demise in London of the first goat to have circumnavigated the globe twice Imagine a book crammed with such
deliciously disposable information and you have History without the Boring Bits By turns bizarre surprising trivial and
