What Is A Parent A Socio Legal Analysis:

What is a Parent Andrew Bainham, Shelley Day Sclater, Martin Richards, 1999-07-01 This collection of essays is the product of a series of seminars held at the University of Cambridge in 1998 under the auspices of the newly formed Cambridge Socio Legal Group The book presents an interdisciplinary exploration of the nature of parenthood and its various manifestations in contemporary society It is divided into three sections dealing respectively with defining parenthood new issues in contemporary parenting and parenting post divorce Each contributor addresses the central question What is a Parent from the perspective of his or her own discipline thus bringing together ideas about parents derived from law sociology psychology biology and criminology Despite the familiar and apparently obvious answer to this question the notion of parent emerges from the analysis as a contested concept Definitions are various and fluid parenting practices are by no means fixed and ideologies which frame who parents are and what they do are subject to disruptions from several quarters In short the essays in this book show the ways in which parent like child is a term with a shifting meaning and parenthood refers to a fluid set of social practices which are historically and culturally situated Contributors Andrew Bainham Carol Brayne Stuart Bridge Rachel Cook Shelley Day Sclater Margaret Ely Loraine Gelsthorpe Susan Golombok Jack Goody Jonathan Herring Felicia Huppert Allison James Martin Johnson Bridget Lindley Mavis Maclean Juliet Mitchell Ros Pickford Martin Richards Wendy Solomou Candida Yates Parental Responsibility, Young Children and Healthcare Law Jo

Bridgeman, 2007-04-19 This book provides a comprehensive examination of the legal regulation of the provision of healthcare to young children in England and Wales A critical analysis is given on the law governing the provision of healthcare to young and dependent children identifying an understanding of the child as vulnerable and in need of protection including from his or her own parents The argument is made for a conceptual framework of relational responsibilities which would ensure that consideration is given to the needs of the child as an individual to the experiences of parents gained as they care for their child and that the wider context such as attitudes towards disability public health issues or the support and resources available is examined This book makes an important contribution to understanding the law regulating the provision of healthcare to young and dependent children and to the development of a discourse of responsibility **Key Concepts in**

What is The Family of Law? Alan Brown, 2019-02-07 This book argues that the legal understanding of family in the UK continues to be underpinned by the idealised image of the nuclear family premised upon the traditional gendered roles of father as breadwinner and mother as homemaker This examination of the law's model of the family has been prompted by the substantial reforms that have taken place in family law in recent decades and the significant evolution in social attitudes and familial practices that has occurred in parallel Throughout the book the influence of the nuclear family is noted in several different contexts various specific legal definitions of family the legal regulation of adult conjugal relationships the attribution of legal parenthood and the construction of the role of the parent within the law Ultimately this book argues that while these reforms have resulted in additional categories of relationship coming to be situated within the nuclear family model there has not as yet been any fundamental alteration of the underpinning concept of the nuclear family itself This book concludes by considering the possibilities offered beyond the nuclear family exploring the reconceptualising of the legal understanding of family around alternative and potentially radical models of family
