Interchange Level 3 Video Resource Book Jack C. Richards, 2011-11-28 Interchange Third edition is a four level series for adult and young adult learners of English from the beginning to the high intermediate level **Catalog of Copyright Entries** Library of Congress. Copyright Office, 1961 Catalog of Copyright Entries, Third Series, 1961 Fatigue and Driving L. R. Hartley, 2019-04-04 This unique edited collection derives from an international workshop uniting experts from the transport industry legislators and research workers The text focuses on issues from fatigue and their impact on performance and safety Fatigue and Driving provides an overview of the individual and organisational perspectives of the problem including its many causes and consequences Transport drivers describe their real life experience of fatigue and how they identify and manage it transport managers discuss the demands and constraints on their industry researchers discuss their current research methodologies and the use of driving simulators *Drink and drug driving law* Great Britain: Parliament: House of Commons: Transport Committee, 2010-12-02 18% of all drivers killed in road accidents are over the drink drive limit In 2007 based on coroners data but only approximately 3% of drivers in the UK are stopped and tested for alcohol compared to the European average of 16% This report calls for the police to be given an additional power to permit preliminary breath tests as part of any designated drink drive enforcement operation Currently the police may stop any vehicle but can only test the driver s breath if there is an element of suspicion There is concern that a reduction in the blood alcohol concentration limit would send out mixed messages but that the aimed for effectively zero limit is too great a step at present Instead concentration should be on stricter enforcement of the current limit and public education It is felt that the success of Great Britain s drink driving policy to date is largely attributable to the deterrent effect of the current 12 month mandatory disqualification penalty and the Committee supports retaining that penalty The committee also calls for the improvement of the detection of drug driving and to strengthen public perception about the likelihood of drug drivers being caught by the police The Government s commitment to install drug screening devices in every police station by 2012 is welcomed though this interim measure should not eclipse the Government s aim over the medium term to develop and type approve a drug screening device for use at the roadside drawing on relevant experience of doing this in the other parts of the world **Parliamentary Papers** Great Britain.
