Hruska, 2016-08-09 Interpreting Naval History at Museums and Historic Sites demonstrates the broad appeal of naval themed commemoration centering on military aspects from both times of war and peace Transcending place and time naval history is shaped into public forums for modern day consumption These occurrences are not limited to just recent history as can be seen in the celebration of man's long history of transforming bodies of water from barriers into opportunities In addition with the modern day nation state naval history is not just limited to areas near large bodies of water as seen with landlocked states in the United States sharing in a proud naval tradition Examples of this included in the book are USS Arizona BB 39 and USS Missouri BB 63 Naval history is just one avenue with sites marking the history of immigration engineering technology and architecture Naval history also extends into lighthouses and port facility construction which are the background of a host of U S Generals in the U S Army with the Army Corps of Engineers which includes the Robert E Lee Using an international approach the book illustrates the intersection of the historical understanding of one's place and naval traditions Locating the boundaries one finds both the depth and breath of the topics linking and dividing water and man *Interpreting African American History and Culture at Museums and Historic Sites* Max A. van Balgooy, 2014-12-24 In this landmark guide nearly two dozen essays by scholars educators and museum leaders suggest the next steps in the interpretation of African American history and culture from the colonial period to the twentieth century at history museums and historic sites This diverse anthology addresses both historical research and interpretive methodologies including investigating church and legal records using social media navigating sensitive or difficult topics preserving historic places engaging students and communities and strengthening connections between local and national history Case studies of exhibitions tours and school programs from around the country provide practical inspiration including photographs of projects and examples of exhibit label text

Highlights include Amanda Seymour discusses the prevalence of false nostalgia at the homes of the first five presidents and offers practical solutions to create a more inclusive nuanced history Dr Bernard Powers reveals that African American church records are a rich but often overlooked source for developing a more complete portrayal of individuals and communities Dr David Young executive director of Cliveden uses his experience in reinterpreting this National Historic Landmark to identify four ways that people respond to a history that has been too often untold ignored or appropriated and how museums and historic sites can constructively respond Dr Matthew Pinsker explains that historic sites may be missing a huge opportunity in telling the story of freedom and emancipation by focusing on the underground railroad rather than its much bigger upper ground counterpart Martha Katz Hyman tackles the challenges of interpreting the material culture of both enslaved and free African Americans in the years before the Civil War by discussing the furnishing of period rooms Dr Benjamin Filene describes three micro public history projects that lead to new ways of understanding the past handling source limitations building partnerships and reaching audiences Andrea Jones shares her approach for engaging students through historical simulations based on the Fight for Your Rights school program at the Atlanta History Center A exhibit on African American Vietnam War veterans at the Heinz History Center not only linked local and international events but became an award winning model of civic engagement A collaboration between a university and museum that began as a local history project interpreting the Scottsboro Boys Trial as a website and brochure ended up changing Alabama law A list of national organizations and an extensive bibliography on the interpretation of African American history provide convenient gateways to additional resources
