American short story has always been characterized by exciting aesthetic innovations and an immense range of topics This handbook offers students and researchers a comprehensive introduction to the multifaceted genre with a special focus on recent developments due to the rise of new media Part I provides systematic overviews of significant contexts ranging from historical political backgrounds short story theories developed by writers print and digital culture to current theoretical approaches and canon formation Part II consists of 35 paired readings of representative short stories by eminent authors charting major steps in the evolution of the American short story from its beginnings as an art form in the early nineteenth century up to the digital age The handbook examines historically methodologically and theoretically the coming together of the enduring narrative practice of compression and concision in American literature It offers fresh and original readings relevant to studying the American short story and shows how the genre performs American culture **Mark Twain and the Spiritual Crisis of His Age** Harold K. Bush, 2007-01-07 Mark Twain is often pictured as a severe critic of religious piety shaking his fist at God and mocking the devout This book highlights Twain's attractions to and engagements with the variety of religious phenomena of America in his lifetime It offers a more complicated understanding of Twain and his literary output

The Author-cat Forrest Glen Robinson, 2007 Forrest G Robinson argues that a strong autobiographical impulse infuses the whole of Clemens's fiction He shows how Clemens wrote out of an enduring need to come to terms with his remembered experiences not to memorialize the past but to transform it Clemens's special curse was guilt He was unable to forgive himself for the deaths of those closest to him especially members of his family from his siblings's death in childhood to the deaths of his own children Nor could he reconcile himself to his role in the Civil War his ignominious part in the duel that prompted his departure from Virginia City in 1864 and worst of all his sense of moral complicity in the crimes of slavery Tracing the theme of bad faith in all of Clemens's major writing but with special attention to the late work Robinson sheds new light on a tormented moral life directing attention to what William Dean Howells describes as the depths of a nature whose tragical seriousness broke in the laughter which the unwise took for the whole of him Reading the American Novel 1865 - 1914 G. R.
