available in English in most cases for the first time The translations range from texts by the most important figures of the period including Christian Thomasius Christian Wolff Christian August Crusius and Georg Friedrich Meier as well as texts by consequential but less familiar thinkers such as Dorothea Christiane Erxleben Theodor Ludwig Lau Friedrich Wilhelm Stosch and Joachim Lange The topics covered range across a number of areas of theoretical philosophy including metaphysics the immortality of the soul materialism and its refutation the pre established harmony epistemology the principle of sufficient reason the limits of reason with respect to matters of faith and logic the role of prejudices in cognition and the doctrine of truth These texts are intended to showcase German philosophy in the early Modern period as a far richer tradition than it is typically given credit for and indeed as much more than either a footnote to Leibniz or merely a step on the way to Kant This collection is a valuable resource for students and scholars interested in the early modern German tradition and the often neglected works that enlightened it *Kant's Critique of Pure Reason* Eric Watkins,2009-08-24 Provides English translations of texts that form the essential background to Kant s Critique of Pure Reason Life Association News ,1929
