*Life on the Edge* Brother John of Taizé, 2017-10-26 Is the Christian faith something that can peacefully exist alongside all the other aspects of an ordinary human life or does it by its very nature turn that life into something else The author of this book a member of a monastic community for over forty years obviously has a vested interest in the answer But even for believers caught up in the day to day life of society work and family the question is an important one at least if they are seeking a measure of consistency in the life they are living And does not the very fact that the question of the importance and urgency of faith needs to be asked witness to the eclipse of an eschatological outlook among Christians at any rate in the mainstream Churches Could this oversight not explain why an eschatological understanding of faith one which sees it as a radical world changing reality has been forced to take refuge often deformed to the point of being unrecognizable in small fanatical groups on the margins of the Christian world

Kaseki and the philosopher Kuniichi Uno These conversations happened during an extended research trip I made to Japan to understand the context and circumstances that engendered Butoh Alongside these exchanges are my reflections on Butoh s complex history These are primarily informed by my pedagogical and performance encounters with the artists I met during this time rather than a theoretical analysis Through the words of these dancers I investigate Butoh s tendency to evade categorization Butoh s artistic legacy of bodily rebellion plurality of authorship and fluidity of form seems prescient and feels more relevant in contemporary times than ever before This book is intended as a practitioner s guide for dancers artists students and scholars with an interest in non Western dance and dance history postmodern performance and Japanese arts and culture
