your elementary age children long before they hit puberty As Christians we believe that the body is a blessing and a gift from God and worth protecting from the beginning of life But many parents and educators wait until puberty to begin conversations with kids about sexuality and relationship boundaries We miss opportunities along the way to reinforce their body's goodness like when young children discover their most intimate body parts for example We might react out of fear and embarrassment because we don't know how to respond calmly Sadusky says we have to be proactive about providing our children a healthy understanding of the goodness of their bodies and offering them ways to respond if someone doesn't respect their boundaries If we don't our discussions about sexuality end up being too little too late By the time puberty hits children will have learned from culture social media and sometimes early experiences of trauma Our failure to engage well in these conversations earlier has significant consequences Start Talking to Your Kids about Sex is one of only a few resources focused on these issues It is organized in a question and answer format making it easy for you to begin with the topic that's most pertinent at the time It will help you identify barriers to these conversations with a child You'll be able to draw from concrete scripts addressing everything from responding to questions about genitalia exploratory play sexual abuse and technology use With each chapter the content will help you grow your courage and practical knowledge This go to resource is structured around the most frequently asked questions Sadusky receives in her clinical practice including What is healthy body exploration Should I make my kids hug strangers How can I help my kids learn to say no when I'm not around What are good house rules and how do I justify them to other adults What do I do if my kids say they had an unwanted sexual experience How should I respond to invitations to sleepovers and overnight trips An appendix offers additional resources for parents While the book is geared toward parents extended family members caregivers mentors mental health professionals and educators also will find the information helpful

Discipline Without Distress Judy Arnall, 2012-09-21 Discipline that you and your child will feel good about Spanking and time outs do NOT work At last a positive discipline book that is full of practical tips strategies skills and ideas for parents of babies through teenagers and tells you EXACTLY what to do in the moment for every type of behaviour from whining to web surfing Includes 50 pages of handy charts of the most common behaviour problems and the tools to handle them respectfully Parents and children today face very different challenges from the previous generation Today's children play not only in the sandbox down the street but also in the world wide web which is too big and complex for parents to control and supervise As young as aged four your child can contact the world and the world can contact them A strong bond between you and your child is critical in order for your child to regard you as their trusted advisor Traditional discipline methods no longer work with today's children and they destroy your ability to influence your increasingly vulnerable children who need you as their lifeline You need new discipline tools
