UFOs Karl Svozil,2023-08-01 Unidentified phenomena in space in the Earth s atmosphere and in waters are too important to leave their exploration to the military and scientific laypersons Their proper scientific study is important for a variety of reasons in particular scientists and the public at large need to know the basic facts to be informed about the way evidence is recorded and to understand the difference between reliable evidence and fiction as well as between plausible explanations and fantasy With this objective the book surveys the history of UFO observations the variety of recorded phenomena and recounts the efforts of investigative commissions and their published findings Although wild rumors are demystified in the process this is not an exercise in rumor bashing An open and at the same time critical mindset is the key Many narratives and hypothesis appear implausible relative to our present state of knowledge but this alone should not lead to their outright exclusion Thus the author also pays attention to UFO sightings that have so far eluded explanation in terms of known physics or meteorology Here the reader will encounter some of the more speculative but scientifically tenable proposals for example relating to sudden zigzag motion without apparent inertia or recognizable propulsion yet always with a

clear guide to their plausibility Last but not least the book outlines plans and suggestions for future research capable of revealing the existence and intentions of extraterrestrial intelligences outer space engineers or technologies so far known only from science fiction

UFO FAQ David J. Ominous Wayne Sturgill,2023-05-23 Hold on to your tinfoil hats and extend your antenna s saucer fans as the author states in his testimonial Ominous The Nexus and Reality of Flying Saucers There is a distance as vast as the universe between belief and knowing Ominous details the continuous connection between Wayne Sturgill and that of his family s history beginning with his mother s verified sighting of five Flying Saucers over Portland Oregon on July 4 1947 The story progresses as Wayne is haunted throughout his life by his Silent Nemesis an encounter with a UFO which begins at age six in 1963 Eventually he learns of his father s encounters with such ships as a top secret intercept pilot during the 1950s as photographs and other data surface through a mysterious informant Toss in the mix his own face to face encounters and photos he risked his life to take of a Flying Saucer that attacked him a CIA agent and the possibility of a doppelganger The enigma intensifies and refuses to relinquish to this day Branded throughout with UFO history and photos spiced up and peppered with Sturgill s unique sense of intelligence and humor whether you know beyond doubt that extraterrestrials and their craft exist as the author knows prepare yourself to address the subject seriously and with an open mind and you will discover Ominous is a book impossible to ignore as you journey along a pathway toward a certain reality that in the near future may erupt worldwide

Weirdness! Taner Edis,2021-11-09 In a world where science faces challenges from creationists and climate change deniers and where social media is awash with wild conspiracy theories it is no longer enough for scientists pundits and activists to simply ask the public to trust science Rather all must better understand how science works and why science is essential By exploring many of the odd beliefs embraced by large sections of the public that are rejected by the scientific mainstream Weirdness makes a case for science that goes beyond popular slogans It takes seriously claims that paranormal phenomena such as psychic abilities and

mythical creatures might be real but demonstrates how such phenomena would extend beyond the laws of nature It rejects a sharp boundary between science and religion while explaining how to negotiate their real differences Denials of science cause no end of trouble but so too does placing blind trust in science As Weirdness reminds readers science should not be seen as a mechanism that takes in data and spits out truth indeed what we get wrong about how the world works is often as interesting as what we get right Atlantis Rising 107 - September/October 2014 J. Richard Greenwell, 1980 An illustrated alphabetically arranged collection of more than 350 articles concerned with numerous aspects of the UFO controversy **UFOs** Robert Powell, 2024-04-02 Robert Powell a founding Board member of the Scientific Coalition for UAP Studies has studied the UFO subject for 17 years His work is encapsulated in UFOs A Scientist Explains What We Know And Don t Know which provides a scientific rationale for the reality of non terrestrial craft that are intelligently controlled Powell begins his book by familiarizing the reader with the history of UFOs and he identifies the more enigmatic and interesting UFO sightings He examines the characteristics of these sightings that argue against a prosaic explanation extreme acceleration electromagnetic interference bending light no obvious propulsion mechanisms and a lack of interaction with the atmosphere Powell discusses the recent events that have caused our government to change the term from UFO to UAP Included is

information never before released indicating the government possesses not just two videos but five videos from 2015 of UFOs operating in the vicinity of the USS Roosevelt nuclear aircraft carrier Powell's later chapters in the book discuss the extraterrestrial hypothesis considering the thousands of exoplanets that have been discovered in the last twenty years Powell challenges the reader to consider all the implications that must be considered if intelligent life discovers us first He looks at how we as individuals and as a society react to UFOs He documents actions taken by our military that include instances when we have fired on UFOs Powell argues that it is time for a change in the study of UFOs The phenomenon has been with us for 75 years and we have learned very little as the decades have passed The author makes the case for what needs to be done going forward The solution he proposes will require a paradigm shift in our thinking and his book provides the information needed to understand that paradigm shift

The Edge of Reality J. Allen Hynek, Jacques Vallee, 2023-11-06 From the outset Hynek and Vallee make their position clear UFOs represent an unknown but real phenomenon The far reaching implications take us to the very edge of what we consider known and real in our physical environment Perhaps say the authors UFOs signal the existence of a domain of nature as yet totally unexplored In this mind stretching book the authors sample UFO reports including those allegedly involving humanoids and describe the perceived patterns in the behavior of the phenomenon They also establish a framework for further study Where might such study lead What can be studied and how What is the real nature of the UFO phenomenon Does it originate with the actions of other intelligences in the universe If so where and what might they be Does the UFO phenomenon have a purely physical explanation or is there a vast hidden realm that holds the solution In this invaluable work we gain insight into the thinking of Hynek and Vallee's research and investigations into UFOs including Project Blue Book the Pascagoula case and the Betty and Barney Hill experience

Flying Saucers and Science Stanton T. Friedman, 2008-06-15 The nuclear physicist and leading UFO researcher reveals the science behind interstellar travel and the US government's extraterrestrial cover up In this comprehensive look at the scientific data concerning flying saucers nuclear physicist Stanton T. Friedman distills more than forty years of research and explains it all in layman's terms He shows how travel to nearby stars is possible without violating the laws of physics and examines data from a number of scientific UFO studies that nearly no one else has discussed in detail Photographs of little known advanced propulsion systems some of which he worked on himself are included as well Beyond his presentation of the scientific data Friedman demonstrates that the United States government's disinformation policy regarding UFOs amounts to nothing less than a Cosmic Watergate He reveals the reasons for this cover up possible reasons for aliens to come to Earth and their reasons for not landing on the White House lawn In this book readers will discover What type of energy and technologies could provide travel between the stars The most likely regions of the universe to cultivate alien life Why the aliens have come to Earth Who believes in the flying saucer phenomenon

A Collection of Unidentified Flying Object Phenomena Clinton Laird, 2022-04-08 This book tells you what the US Government failed to report about UFOs It explains

where the UFOs come from what they are doing here and exposes the United States antigravity UFO vehicles The book gives the history of UFOs along with biblical and modern UFO reports It gives the locations of the best places to view UFOs and how the antigravity propulsion system of a UFO works The author is neither for nor against the belief in UFOs and merely lays out the details of UFO incidences so that the reader can decide in the validity of the phenomena **The Report on Unidentified Flying Objects** Edward J. Ruppelt, 2020-04-09 The Report on Unidentified Flying Objects is a book by Edward J Ruppelt which described the study of UFOs by United States Air Force from 1947 to 1955 Ruppelt was a United States Air Force officer best known for his involvement in Project Blue Book a formal governmental study of unidentified flying objects He is generally credited with coining the term unidentified flying object Because Ruppelt was the central axis of the government s investigation the book provides a unique insider look at how the government s efforts functioned *A Collection Of Unidentified Flying Object Phenomena* Clinton Laird, 2021-09 This book tells you what the US Government failed to report about UFOs It explains where the UFOs come from what they are doing here and exposes the United States antigravity UFO vehicles The book gives the history of UFOs along with biblical and modern UFO reports It gives the locations of the best places to view UFOs and how the antigravity propulsion system of a UFO works The author is neither for nor against the belief in UFOs and merely lays out the details of UFO incidences so that the reader can decide in the validity of the phenomena **Unconventional Flying Objects** , 2005 [UFOs and Close Encounters](#) Phyllis Galde and the Editors of FATE, 2018-09-05 Asked where he got the ideas for his stories Stephen King replied My mother would read me FATE magazine which was about the paranormal flying saucers and all that stuff and I was fascinated Now you can read The Best of FATE UFOs and Close Encounters brings you the story of Unidentified Flying Objects through key reports from the encounter that started it all in 1948 to 21st century sightings worldwide selected from the magazine s over 700 issues In this book Kenneth Arnold the pilot whose 1949 account launched the modern fascination with flying saucers shares his story James A Harder professor of engineering at the UC Berkely s metallurgical analysis of UFO remains he says proves they are of extraterrestrial origin Cambridge historian Harold T Wilkins discusses findings from his survey of 1 000 years of UFO sightings Utah State University professor Frank B Salisbury PhD meditates on whether science alone is adequate to explain their existence Renowned UFOlogist Jaques Vallee shares possible extradimensional psychic or spiritual explanations Geologist Robert M Schoch PhD considers on a connection between UFOs and Lost Civilizations Many others share authentic personal reports of UFOs seen around the world and even beneath the seas You will not find any final answers or solutions they still don t yet exist contrary to what some people might tell you But you will find sensible clear headed perspectives on the greatest riddle of our time as seen by those who know the most about it And it s a good bet that when the solution is found it will be due in no small part to the efforts of the individuals whose testimonies you ll find in these pages and those of the most thought provoking publication of all time FATE magazine **Identified Flying Objects** Dr. Michael P.

Masters,2019-03-22 Could UFOs and Aliens simply be us but from the future This provocative new book cautiously examines the premise that extraterrestrials may instead be our distant human descendants using the anthropological tool of time travel to visit and study us in their own hominin evolutionary past Dr Michael P Masters a professor of biological anthropology specializing in human evolutionary anatomy archaeology and biomedicine explores how the persistence of long term biological and cultural trends in human evolution may ultimately result in us becoming the ones piloting these disc shaped craft which are likely the very devices that allow our future progeny to venture backward across the landscape of time Moreover these extraterrestrials are ubiquitously described as bipedal large brained hairless human like beings who communicate with us in our own languages and who possess technology advanced beyond but clearly built upon our own These accounts coupled with a thorough understanding of the past and modern human condition point to the continuation of established biological and cultural trends here on Earth long into the distant human future *The Report on Unidentified Flying Objects by the Former Head of Project Blue* Edward J. Ruppelt,2010-11 The Report on Unidentified Flying Objects is Edward J Ruppelt s memoir of his role in the seminal US Air Force UFO study projects Projects Sign Grudge and Blue Book According to this account he coined the acronym UFO and put many of the official procedures for reporting and studying UFOs in place An enjoyable read The Report on Unidentified Flying Objects captures the feel of working for the mid 20th century US military Ruppelt describes the changing attitudes of the USAF about UFOs during the early 1950s wobbling between denial ridicule paranoia and genuine inquiry A key point of The Report on Unidentified Flying Objects is identifying the military s role Ruppelt makes a strong case that UFOs weren t a top secret weapons system the reports were not disinformation by intelligence agencies nor was there a concerted effort to cover up UFOs by the US government Ruppelt gives unique details on some of the most impressive sightings on his watch These were largely witnessed by highly trained observers such as radar operators fighter and commercial pilots astronomers and other scientists often during the course of their official duties The Air Force group that Ruppelt worked for had access to data on top secret balloon launches and test flights so they were able to sort out which reports could be explained in this way He consulted with a wide range of scientific specialists many of whom were in favor of the extraterrestrial hypothesis and some who were skeptics Fully a quarter of the reports were still unexplained after this rigorous filtering The Report on Unidentified Flying Objects is a must read for anyone interested in UFOs *The Case for the UFO: Unidentified Flying Objects* M. Jessup,2014-05-07 This is the first ever reprint of the book that brought the entire legend of the Philadelphia Experiment into the public sphere and created controversy for decades The Case For the UFO Why has this book been suppressed for so many years It is a well reasoned review of the UFO record by an eminent astronomer mathematician and archaeologist Dr M K Jessup His conclusions are breathtaking and incredible but inescapable Description from the original dust jacket Flying saucers are not new For thousands of years men have seen mysterious objects in the skies Now a prominent scientists proves that unidentified flying

objects originate here on Earth If you have ever wondered about the things today s scientists do not will not or cannot explain this book is for you Such questions might be What is the hidden meaning of the comet s tail What caused the Devil s Footprints of Devonshire Why are we wrong to think of space flight only in terms of rocket power How was a soldier teleported from the Phillippine Islands to Mexico City within one hour What force lifted 1200 ton stones in ancient Peru How is acceleration achieved by UFOs What caused the disappearance of the crews of the SS Sea Bird and the Marie Celeste Was the secret of space flight known 50 000 years ago What is the strange truth hidden in the ancient ruins of Baalbek And finally and most importantly Are the UFOs friend or foe This is the original edition of The Case For the UFO which does NOT include the scrawled annotations of the infamous Carlos Allende who may or may not have tormented Jessup into committing suicide You will find this version much easier to read than the Varo Edition and probably much more meaningful

UFOs Unmasked Jan Landsberg,2018-08-12 Unidentified Flying Objects are one of the most provocative and puzzling mysteries What are they and where do they come from Are aliens really visiting planet Earth Thousands of UFOs are observed every year yet they are as enigmatic now as when they were first described as flying saucers over seventy years ago Have you ever wondered what they really are In UFOs Unmasked a thought provoking and stimulating expos scientist Jan H Landsberg Ph D evaluates hundreds of well documented and thoroughly researched case studies from the late 1800s onwards using a logical analytical approach With the premise that UFOs are real physical phenomena Landsberg conducts an in depth review of diverse global incidents involving UFOs and their effects and analyzes alleged entity encounters and alien abductions UFOs Unmasked reveals that there are consistent and common factors that explain why UFOs exist and where they come from More significantly and with compelling evidence UFOs Unmasked proposes that UFOs are an unrecognized social issue affecting hundreds of people causing long term mental and physical health problems animal deaths and untold environmental damage Journey with the author on a riveting yet shocking path and discover that the solution to the UFO phenomenon is clearly right here on Earth
