Under New Management Universities Administrative Labor And The Professional Turn

Patrick Vollmar

Under New Management Universities Administrative Labor And The Professional Turn:

Under New Management Randy Martin, 2011-06-17 Randy Martin takes a novel even handed approach to this gulf between professors who feel a loss of autonomy and administrators Martin imagines a political future for academic labour based on a critical understanding of the administrative work that faculty already undertake

Transforming Classes Leo Panitch, Greg Albo, 2014-12-22 For more than half a century the Socialist Register has brought together some of the sharpest thinkers from around the globe to address the pressing issues of our time Founded by Ralph Miliband and John Saville in London in 1964 SR continues their commitment to independent and thought provoking analysis free of dogma or sectarian positions Transforming Classes is a compendium of socialist thought today and a clarifying account of class struggle in the early twenty first century from China to the United States

Mass Intellectuality of the Neoliberal State Nicolas Fleet, 2021-07-19 This book addresses the political effects of the massification of higher education and intellectual labor in the neoliberal state Using the case of Chile the author argues that public professionalism emerges in the mass university system producing excesses of knowledge which infuse the state with political purpose at many levels The emergence of the student movement in 2011 then the major social mobilization against the neoliberal state since the restoration of democracy in 1990 provided a clear manifestation of the politicization and ideological divisions of the mass university system In conditions of mass intellectuality public professionals mobilize their political affinities and links with society eventually affecting the direction of state power even against neoliberal policy Through several interviews with academics public professionals and other documentary and statistical analyses the book illustrates the different sites of political socialization and the ideological effectiveness of the emergent mass intellectuality of the neoliberal state

Crises of Imagination, Crises of Power Max Haiven, 2014-03-13 Today when it seems like everything has been privatized when austerity is too often seen as an economic or political problem that can be solved through better policy and when the idea of moral values has been commandeered by the right how can we re imagine the forces used as weapons against community solidarity ecology and life itself In this stirring call to arms Max Haiven argues that capitalism has colonized how we all imagine and express what is valuable Looking at the decline of the public sphere the corporatization of education the privatization of creativity and the power of finance capital in opposition to the power of the imagination and the growth of contemporary social movements Haiven provides a powerful argument for creating an anti capitalist commons Capitalism is not in crisis it is the crisis and moving beyond it is the only key to survival Crucial reading for all those questioning the imposition of austerity and hoping for a fairer future beyond it

Power and Protest at an American University Ellen Carnaghan, Kathryn E. Kuhn, 2020-10-27 This book examines the successful no confidence movement led by faculty at Saint Louis University in 2013 in an effort to unseat the university president considering the reasons for success when similar movements often fail Through a series of chapters written by faculty from many disciplines at the university it uses a particular episode of faculty

protest to shed light on wider issues concerning the circumstances in which faculty are likely to be motivated to protest the institutional frameworks that make protest possible and the strategies that get results As such it will appeal to scholars of social movements with interests in protest and mobilization in the field of education *Dark Academia* Peter

Fleming, 2021-05-20 Fleming's books are sparkingly sardonic and hilariously angry Guardian There is a strong link between the neoliberalisation of higher education over the last 20 years and the psychological hell now endured by its staff and students While academia was once thought of as the best job in the world one that fosters autonomy craft intrinsic job satisfaction and vocational zeal you would be hard pressed to find a lecturer who believes that now Peter Fleming delves into this new metrics obsessed overly hierarchical world to bring out the hidden underbelly of the neoliberal university He examines commercialisation mental illness and self harm the rise of managerialism students as consumers and evaluators and the competitive individualism which casts a dark sheen of alienation over departments Arguing that time has almost run out to reverse this decline this book shows how academics and students need to act now if they are to begin to fix this broken system *Debt to Society* Miranda Joseph, 2014-09-01 It is commonplace to say that criminals pay their debt to society by

spending time in prison but what is a debt to society How is crime understood as a debt How has time become the equivalent for crime And how does criminal debt relate to the kind of debt held by consumers and university students In *Debt to Society* Miranda Joseph explores modes of accounting as they are used to create sustain or transform social relations Envisioning accounting broadly to include financial accounting managerial accounting of costs and performance and the calculation of debts to society owed by criminals Joseph argues that accounting technologies have a powerful effect on social dynamics by attributing credits and debts From sovereign bonds and securitized credit card debt to student debt and mortgages there is no doubt that debt and accounting structure our lives Exploring central components of neoliberalism and neoliberalism in crisis from incarceration to personal finance and university management *Debt to Society* exposes the uneven distribution of accountability within our society Joseph demonstrates how ubiquitous the forces of accounting have become in shaping all aspects of our lives proposing that we appropriate accounting and offer alternative accounts to turn the present toward a more widely shared well being *Justice Is an Option* Robert Meister, 2021-04-19 More than ten years after the worst crisis since the Great Depression the financial sector is thriving But something is deeply wrong Taxpayers bore the burden of

bailing out too big to fail banks but got nothing in return Inequality has soared and a populist backlash against elites has shaken the foundations of our political order Meanwhile financial capitalism seems more entrenched than ever What is the left to do *Justice Is an Option* uses those problems and the framework of finance that created them to reimagine historical justice Robert Meister returns to the spirit of Marx to diagnose our current age of finance Instead of closing our eyes to the political and economic realities of our era we need to grapple with them head on Meister does just that asking whether the very tools of finance that have created our vastly unequal world could instead be made to serve justice and equality Meister

here formulates nothing less than a democratic financial theory for the twenty first century one that is equally conversant in political philosophy Marxism and contemporary politics Justice Is an Option is a radical invigorating first page of a new and sorely needed leftist playbook An Introduction to School Administration Mervin Chester Nolte,1966 **Journal of the Institute of Personnel Management** ,1922 **Administrative Leadership** Cameron Fincher,2003-11-03 Administrative Leadership interprets leadership in higher education as the administration governance and management of contemporary colleges and universities in America The effectiveness of administration leadership is regarded as a function of personal qualities situational demands group or organizational characteristics and cultural conditions Author Cameron Fincher presents a detailed rationale for administrative performance or accomplishments in concerted efforts to make decisions solve problems resolve conflicts and gain consensus in the administration and governance of institutions of higher education
