*Narratives about Jews among Muslims in Norway* Vibeke Moe Bjørnbekk, 2024-06-17 What is the nature of Muslim Jewish relations in Europe today Based on qualitative interview data this book explores narratives about Jews among Muslims in Norway Drawing on culturally embedded narratives as well as personal experiences interviewees reflect on the relationship between Jews and Muslims The interreligious exchange between Islam and Judaism is as old as Islam Today the Arab Israeli conflict has become an important frame of reference in the public discourse on Muslim Jewish relations The narratives presented in this book delineate shifting community boundaries and identifications that transcend dichotomised notions of Muslims versus Jews The analysis shows how Jewish history in Europe and the history of modern antisemitism serve as interpretative keys in the narratives used for explaining the situation of the Muslim minority today Furthermore the book demonstrates how interviewees perceptions of society s attitudes toward Muslim and Jewish experiences also strongly influence their perceptions of Muslim Jewish relations

**The Murderous History of Bible Translations** Harry Freedman, 2016-11-15 Harry Freedman author of *The Talmud A Biography* recounts the fascinating and bloody history of the Bible In 1535 William Tyndale the first man to produce an English version of the Bible in print was captured and imprisoned in Belgium A year later he was strangled and then burned at the stake His co translator was also burned In that same year the translator of the first Dutch Bible was arrested and beheaded These were not the first nor were they the last instances of extreme violence against Bible translators *The Murderous History of Bible Translations* tells the remarkable and bloody story of those who dared translate the word of God The Bible has been translated far more than any other book To our minds it is self evident that believers can read their sacred literature in a language they understand But the history of Bible translations is far more contentious than reason would suggest Bible translations underlie an astonishing number of religious conflicts that have plagued the world Harry Freedman describes brilliantly the passions and strong emotions that arise when deeply held religious convictions are threatened or undermined He tells of the struggle for authority and orthodoxy in a world where temporal power was always subjugated to the divine a world in which the idea of a Bible for all was so important that many were willing to give up their time security and even their lives

**Union in Separation** Autori Vari, 2016-01-14T00:00:00+01:00 *Union in Separation* presents a series of case studies on diasporic groups in the late medieval and early modern Mediterranean and Black Sea regions It explores how Armenian Byzantine Greek Florentine Genoese Hospitaller Jewish Mamluk and Venetian communities characterized by diasporic identities and inserted into local

contexts navigated religious and socio ethnic boundaries as well as other categories of difference The volume draws on a wide range of historical and social scientific methods and offers new perspectives on the arbitration of difference in the wider eastern Mediterranean from Tana to Cairo and Marseille to Isfahan prior to the emergence of nation states It provides not only an analytical toolbox for historical diaspora studies but also reveals how under the looming threat of crusade and within the daily routines of trade diasporic groups and their hosts negotiated modes of coexistence that oscillated between cooperation and conflict integration and rejection union and separation

**Drawing Fire** Benjamin Pogrund,2023-06-14 Benjamin Pogrund who spent 26 years as a journalist in South Africa investigating apartheid and who has been living in Israel for the past 15 years investigates the accusation that Israel is practicing apartheid and the motives of those who make it His study is founded on a belief in Israel combined with frank criticism to provide a balanced view of Israel s strengths and problems To understand Israel today one must first look at the past and so the book first outlines key foundational events to explain current attitudes It then explores the contradictions found in the region including discrimination against Israeli Arabs and among Jews before concluding that it is wrong to affix the apartheid label to Israel inside the Green Line of 1948 1967 It also deconstructs the criticisms of Israel and the boycott movement before arguing for two states Israeli and Palestinian as the only way forward for Jews and Arabs This detailed and balanced study offers a unique comparison between South Africa a

The Chronicles of the Jewish People Raymond P. Scheindlin,1996 In The Chronicles of the Jewish People Professor Raymond P Scheindlin of the Jewish Theological Seminary of America presents a comprehensive and panoramic view of the entire history of the Jews from the earliest beginnings as immigrants to Canaan from Mesopotamia to the most recent political turmoil in the Middle East

*Separation and Its Discontents* Kevin B. MacDonald,1998 MacDonald develops a theory of anti Semitism based on an evolutionary interpretation of social identity theory Historical examples of anti Semitism are analyzed as scientifically comprehensible gentile responses to a distinctive segregated group Anti Semitism has historically been exacerbated by resource competition between Jews and gentiles Jews have engaged in a wide range of strategies to try to combat it These strategies include crypsis political activity writing religious and intellectual apologia directed at both ingroup and outgroup members and engaging in self deception regarding both the nature of Judaism and gentile responses to Judaism

**International Bibliography of Book Reviews of Scholarly Literature Chiefly in the Fields of Arts and Humanities and the Social Sciences** ,1996

**Jews from Konstantiniyye to Islambol** Okan Cakir,2005 In this study I analyze the Jewish community of Istanbul in the 17th Century as reflected in the works of two elebis or bureaucrats namely Evliya elebi and Eremya elebi The former was an Ottoman statesman and a traveler in the Ottoman world who is very well known among students of Ottoman history The latter was a preeminent Armenian scholar within the Armenian community of Istanbul who wrote a number of important works in the 17th century although he is not very well known by Ottomanists except for some of his works this is in part

because a number of his works are still waiting to be translated into Western languages I will concentrate on Istanbul Jewry instead of all Jewish communities under the Ottomans although I will provide the reader with information on other minorities and on other Jewish communities of the empire when necessary In addition to some extent I will include other opinions on Istanbul Jewry opinions of Jews themselves as reflected in responsa literature and of European travelers and visitors to the Ottoman Empire during this period In this study I reconsider the so called millet system and question the insistence on the term millet system by some scholars even those who acknowledge the incorrect application of this term to the pre nineteenth century Ottoman Empire Then I suggest a clarification of this issue with reference to works by experts on Ottoman minorities In addition I argue that the Seyahatname is a mirror of rising religious conservatism and restoration attempts within the empire and therefore its timing and contents are also significant as can be seen from the evidences suggested in this work Furthermore I also seek answers for the omission of the Sabbatai Sevi episode in the Seyahatname and other Ottoman sources I also suggest that Eremya elebi s works help us to have a better understanding of the Islamization process in Istanbul especially in the 1660s and the social and economic rivalry between the Jews and the Greeks around this time Eremya s works also give us invaluable ideas concerning the Sabbatai Sevi episode and how one minority was seen from another minority s perspective

*Alternative Orientalisms in Latin America and Beyond* Ignacio López-Calvo, 2007

Orientalism is widely known as the study of Eastern cultures by Western intellectuals Yet most people would associate this term with scholars from France England Germany and the United States This book presents along with new essays dealing with the United States the Islamic world and the Far East alternative views on Orientalism this time also coming from Latin America and other regions While still dealing in some cases with interpretations of the East by Western outsiders the fact that the cultural production analyzed as well as many of the critics comes from an area Latin America that has also been affected by European and U S imperialism and colonialism brings new light to the traditionally negative connotations ascribed to the term These essays reveal that though prejudice and racism are still prevalent in many Orientalist aesthetic practices coming from Latin America and other world regions the perspective can also be radically different From this perspective rather than constructing the Orient as the West TM s alien and inferior other the mirror image that appears in this book constitutes an attempt at understanding the Asian within us within the Western world The postcolonial approach of many of these essays is the theoretical framework that prevents or at least tries to prevent paternalistic or hegemonic representations of the Asian subject As a result the emphasis is often placed on transculturation hybridity liminality double consciousness and cultural identity
