Hartman,2018-11-01 Nearly all kinds of ancient mythology and religions were constructed from early civilizations trying to make sense of their surroundings The idea of science was completely unknown to them rather they explained natural phenomena as done by mythical deities In Greek mythology this is how we come to certain instances like Apollo the Sun God or Zeus the God of the Heavens and Sky The idea of the Sun seemingly running across the horizon was rationalized by them as Apollo driving his blazing chariot through the sky Night was formed by his rest and subsequent absence Thunderstorms were Zeus s anger His cherished lightning bolt destroyed those who caused him an offense And this goes on and on with each of the Gods having domain over certain areas of natural life There is Poseidon whose domain was the sea If you wanted to cross the water on a ship it was an absolute must to pray and sacrifice to him Hades ruled the underworld If you wanted love your prayers would have to be directed to Aphrodite *Weird But True!
