Understanding And Using Health Experiences Improving Patient Care

**Sue Ziebland, Angela Coulter, Joseph D.
Calabrese, Louise Locock**

Understanding And Using Health Experiences Improving Patient Care:

Understanding and Using Health Experiences Sue Ziebland, Angela Coulter, Joseph D. Calabrese, Louise Locock, 2013-04-04 Improving patient experience is a global priority for health policy makers and care providers This book critically examines the various ways in which people s experience of health and healthcare can be recorded analysed and therefore improved **Understanding and Using Health Experiences: Improving patient care** Sue Ziebland, Angela Coulter, Joseph D. Calabrese, Louise Locock, 2013-04-04 Improving patient experience is a global priority for health policy makers and care providers The need to look at healthcare delivery through the eyes of patients is widely accepted but how should it be done What use can be made of this information and what evidence is there that such exercises lead to better care *Understanding and Using Health Experiences* Improving patient care examines a broad range of different sources and techniques for gathering and analyzing health experiences Providing an accessible and pragmatic overview of the diversity and richness of research in the field this book explores the strengths and limitations of different approaches and assesses what each method can contribute to improving people s experience of illness and the way that health services are delivered The book looks at topics such as using focus groups to understand experiences of health and illness patient surveys and the internet as a source of information on people s experience Using clear and engaging examples throughout the book is accessibly written by experts in social science health services and health policy and will be valuable to postgraduate students healthcare practitioners and individuals working in health and social policy public sector management and research

Health Care Evaluation Carmen Tsang, David Cromwell, 2017-02-16 Evaluation of health care is necessary if we are to understand the organisation of health services and to determine how health care interventions should be delivered The second edition of this fully revised public health text introduces the various types of health care evaluations and explores the ways in which scientifically robust studies can be used to assess health care interventions with a focus on measuring their impact on patient outcomes Throughout this book the concepts and methods of evaluating health care interventions are considered in terms of four key dimensions effectiveness efficiency humanity and equity In order to fully equip the public health practitioner or student this book Considers a broad range of evaluation methods including cross sectional studies quasi experimental designs and qualitative methods Gives an updated account of current theory research and practice in the field Features activities to help readers apply its content to their own practice *Health Care Evaluation* 2nd edition is an essential textbook that outlines evaluation methods in an accessible way for public health students public health practitioners and policy makers *Understanding Public Health* is an innovative series published by Open University Press in collaboration with the London School of Hygiene Tropical Medicine where it is used as a key learning resource for postgraduate programmes It provides self directed learning covering the major issues in public health affecting low middle and high income countries In ageing societies and developing country populations at risk of long term conditions the impact of new

health care interventions on health and wellbeing require robust evaluation Tsang Cromwell and colleagues set out a comprehensive framework for a breadth of simple evaluations carefully laid out with thoughtful vignettes for readers to address and informative reference material A book for experienced and fledgling evaluators to access maximising the chances of decisions around innovations being based on sound science Professor Charles Wolfe Professor of Public Health Guy's St Thomas NHS Foundation Trust UK Evaluation is an essential tool to support health services respond to ever more complex demands from an ageing population This volume is strongly recommended as it provides outstanding guidance combining authority with clarity and ease of use Ray Fitzpatrick Professor of Public Health and Primary Care University of Oxford UK

Human Aspects of IT for the Aged Population Qin Gao, Jia Zhou, 2024-05-31 This two volume set LNCS 14725 14726 constitutes the thoroughly refereed proceedings of the 10th International Conference on Human Aspects of IT for the Aged Population ITAP 2024 held as part of the 26th International Conference on Human Computer Interaction HCI International 2024 HCII 2024 was held as a hybrid event in Washington DC USA during June July 2024 The total of 1271 papers and 309 posters included in the HCII 2023 proceedings was carefully reviewed and selected from 5108 submissions The ITAP 2024 conference offers a broad range of relevant disciplines and domains to exchange 1 research contributions on older people's abilities and competencies needs and requirements and attitudes and behavioral patterns in relation to IT use 2 innovative ideas practices and experiences related to the design operation and evaluation of IT applications systems and services for older people
