We Like To Nurse Too World Health Hohm Press:

Nos Gusta Amamantar / We Like to Nurse Chia Martin, 2016 This bilingual children's picture book is the Board Book version of Hohm Press's highly successful *We Like to Nurse*. A classic in the field with over 300,000 books sold to date, this book draws attention to our kinship with all mammals using simple text and showing delightful full color illustrations of animal mothers naturally feeding their babies. The illustrations and text in *We Like to Nurse* focus on both exotic animals like elephants and giraffes as well as animals that children may see every day like cats and dogs. This book is a celebration of the mother-infant bond that is naturally established through nursing. Because of its commitment to family health and the well-being of infants and children, Hohm Press is proud to present this new user-friendly format for a title that stresses the benefits of human infant breastfeeding. This book joins *We Like to Nurse Too* and *Ready to Wean* in our Family Health Series along with other titles directed toward conscious parenting and education like *Free Range Learning* and *Conscious Parenting*. The book also takes a stand for the health of the environment honoring the Earth and all her creatures. We believe that introducing young children to the nursing habits of baby mammals can foster a love and concern that will grow to protection of the Earth we love. School Library Journal, 2010

We Like to Nurse Too Mary Young, 2009 Introduces young readers to the nursing behavior of several species of marine mammals including whales, dolphins, seals, and otters.

Animales Sorprendentes / Amazing Animals Mary Angelon Young, 2020-05 This book introduces readers to some of the most fascinating and unusual animals from all parts of our Earth. All of them are mammals so they all like to nurse. Did you know that Quokkas are thought to be the world's friendliest animal? That some Kangaroos actually live in trees? That Rock Hyraxes are known to sing songs? These 3 are among the 12 amazing animals that adults and children can learn about and welcome as new friends in this new book *Animales Sorprendentes*. Que Amamantan a Sus Crias *Amazing Animals That Like to Nurse* is a 32-page children's picture book available in both English and Bilingual English-Spanish editions and the latest addition to the outstanding line of breastfeeding/nursing titles available from Hohm Press. Previous bestselling books in this series include *Mama's Leche* and *Tambien A Nosotros*. *Nos Gusta Amamantar*, *We Like to Nurse Too*. These books offer encouragement in the womanly art of breastfeeding and stress the naturalness of this human process while drawing attention to our kinship with other mammals. This book provides a starting point for many interesting and fun activities with children. Since many mothers have an older child tucked in at their sides while nursing their younger one, they have the challenge of integrating a new member of the family into an existing system. This book will engage the interest and attention of children of all ages. Because these unusual animals are so engaging and fascinating, older children can easily be included in the intimacy between mother and infant. Additional information about these animals is included in a section in the back pages of this book and promises to enhance the learning experience of older children. Adults too will find these animals and their habits curious, if not irresistible. Several of these animals are endangered species, one more reason to reinforce their unique qualities to

children In the process of research the author and her granddaughter co author Ashe Parker were overjoyed to discover countless other little known facts about these extraordinary mammals including that some are actually hatched out of eggs or have scales instead of fur The author says Some of these critters can carry on conversations with complex vocabularies that allow them to talk to each other or sing using whistles barks growls and chirps This book is a necessary addition to school and public library collections and a beautiful gift for pregnant moms **We Like to Nurse** Chia Martin,1994-07-01 *The World Needs Nursing* World Health Organization,199? Fifth Report World Health Organization,1966 **Listo Para Destetar / Ready to Wean** Elyse April,2014-08 The transition from nursing to weaning is a rite of passage It can either be a time full of stress regret and confusion or a joyous celebration of growth Ready to Wean is for mothers and nursing children to help them both communicate their deep love and respect for one another The author believes that it is never too early for moms and dads to talk to their baby with tenderness and dignity and to explain that nursing together is a cherished and special time Yet when mother no longer chooses this mutual task or for health or other reasons cannot continue then it is better for parent and child to begin the weaning There is no other book like this although many adult books are devoted to the process of weaning in depth Ready to Wean is a children s picture book designed to empower mothers in the weaning process The friendly text reassures and prepares the child in a confident way for this new stage of growth and bolsters mother s confidence that she will continue to grow with her child beyond this particular form Since the appearance of this book in English national and state WIC Women Infants and Children agencies are asking about release of this book in a bilingual English Spanish edition calling it a crucial addition to the literature Without making any general statement about how long nursing should continue the book cleverly and gently allows each mom to insert her own deadline date and encourages her to start planning for this date with her child The author knows that parents and children will be sharing this bonding experience differently and so she suggests many lovely nurturing alternatives that babies and young children can relate to as the date approaches The emotions a woman feels in pregnancy and mothering are powerful And with nursing these emotions are transmitted to the child consciously or not Many women are troubled as weaning approaches They sometimes feel guilty holding themselves to an unrealistic standard of perfection They know that generally their child loves to nurse Preparing the child for weaning is an invaluable means to avoid any shock or trauma to either mother or child The warm and playful illustrations of master artist Diane Iverson convey a mood of joyfulness and new experience for the child and support to any mom **"We Have Rekindled a Spirit of Global Solidarity"** World Health Organization.
