Gender, Work, and Family in a Chinese Economic Zone Nancy E Riley, 2012-11-06 This book examines the dynamics of power within the families of married women who have migrated from rural areas to China s Dalian Economic Zone Engaging the question of whether waged work gives women power in their families this ethnographic study finds that women do indeed use their new positions and urban status to negotiate their family status However women use these new resources not necessarily to promote their own individual liberation but rather to strengthen their contribution as

wives and especially as mothers Thus this new modernity provides a space for the re inscribing of traditional roles even as it may work to give women new found power within their families How and why this process occurs is related to the dual inequalities these women face as rural migrants and as women

Low Fertility Regimes and Demographic and Societal Change Dudley L. Poston, Jr.,2017-10-27 This book explores how low fertility levels could fundamentally change a country s population and society It analyzes the profound effects below average birthrates have on virtually all aspects of society from the economy to religion from marriage to gender roles An introduction written by Dudley L Poston Jr provides a general overview of this relatively new phenomenon that has already impacted nearly one half of the countries of the world today Poston also discusses the broad implications of the changes that these societies are currently experiencing and the ones that they will soon confront Next each of the 12 essays collected in this volume look into how a low fertility level affects a particular demographic or societal structure or process In addition case studies offer an in depth portrait of these changes in the United States and China Coverage includes the dynamics of low and lowest low where the birthrate is well below average fertility high and increasing life expectancies in the United States the implications of native born fertility and other socio demographic changes for less skilled U S immigration ageing and age dependency in post industrial societies good mothering and gender roles in China the increasing prevalence of voluntary childlessness how low fertility and prolonged longevity could result in slow economic growth the decreasing relevance of traditional religious systems and more The emergence and persistence of population decline produced by low fertility levels has the potential to greatly alter key aspects of society as well as individual lives Containing insightful analysis from some of the top minds in demography today this book will arm readers with the knowledge they need to fully understand these transformations
